Stock Market Closing Prices and Complete Sales

PRICE 2 CENTS

VOL. 82, NO. 221.

WALL STREET COPPERS OFF TO 1930 LOWS ON 14 CENT METAL PRICE

Shares, However, Make Good Recovery Indicating Cut Had Been Fairly Well Discounted.

WILLYS OVERLAND OMITS DIVIDEND

General Market Passes Through a Storm of Selling but Closes Irregularly Higher.

By the Associated Press.

NEW YORK, April 15.—The stock market passed through a storm of selling today as a result of the drastic cut in the price of copper but many of the early declines were cut down, wiped out or converted into gains as strong buying support made its appearance, leaving clearing operations irregularly higher. Total sales of slightly more than 4,200,000 shares were slightly in excess of those of yesterday, but ran well below the volume last week.

In addition to the cut in copper, which sent all the leading copper stocks to new low levels for the year, the market was forced to contend with renewed interest of the grain markets and rumors that the common dividend on Willys Overland would be passed, after the close of the market. General Electric reported first quarter profits moderately in excess of a year ago, and there were a series of extra dividend announcements by small companies.

Copper Price Cut 4 Cents.

In some quarters there was a disposition to regard the drop from 14 cents a pound in the price of copper as a bullish development toward the market as a whole on the theory that it removed the principal disturbing factor to speculative operations for advance. Some difference of opinion was apparent as to whether the 14 cent price could be maintained but it was generally believed that the cut was sufficiently drastic to encourage a resumption of large-scale buying by large consumers.

Coppers made good recovery from the day's low levels indicating that the cut in metal prices had been fairly well discounted.

Second closed unchanged at 14 1/2 after having touched a new low at 14 3/4. Kennecott closed only fractionally lower, 14 5/8, after having set a new low 2 points below that figure. Wall Street heard reports today that negotiations were under way for a merger of Calumet & Arizona and Phelps Dodge.

Motors were sluggish because of the fear that some of the other small manufacturers would have to follow the lead of Willys Overland in cutting or omitting dividends. General Motors closed unchanged at 52 1/2 but Packard, Chrysler and some of the others showed small net recessions.

General Electric Higher. Westinghouse Electric and General Electric advanced in response to reports that they would receive a large block of Radio Corporation of America stock in exchange for patent rights. Radio closed slightly higher.

Merchandising and mail order shares were in good demand. Best & Co., which is reported to be planning the opening of several new suburban stores, touched a new high at 49, and Associated Dry Goods crossed 50 to a new peak on reports that current sales were running 25 per cent in excess of a month last year.

Steel common moved up 2 points to 194 1/2. Bethlehem closed about a point lower.

Railroads were heavy. Atchison and Missouri-Kansas-Texas, each fell about 4 points and several others declined about a point on two. A brisk demand developed for the electrical refrigeration stocks.

Money Relatively Firm. Call money was relatively firm today at the renewal rate of 4 per cent due to the heavy amount of money calling to meet requirements of the New York State income taxes and Government financing.

For a time during the morning it was feared that the rate would increase, but these fears were allayed when a fresh supply of funds entered the market about midday.

Stock prices, with other factors and market news, will be found on pages 11C, 12C and 13C.

RAYON AND SILK TARIFF RAISED TO MAXIMUM RATES

Middle Classes Affected
Most — \$50,000,000 Increase a Year in Women's Clothes Bills Estimated.

PAPER AND BOOK SCHEDULE AGREED ON

Straw Hat Duty Increased — Reduction in Import Charge on Photographic Print Paper.

By PAUL Y. ANDERSON,
A Staff Correspondent of the Post-Dispatch.

WASHINGTON, April 15.—The tariff rates on rayon, which entered largely into the clothing of persons of modest means, were jacked up to the last notch yesterday by the Conference Committee, controlled by Old Guard Republicans. Just to show that it was a hard blow to the poorer classes, the committee went through the same process with regard to the rates on silk.

It appeared from the results of the day's work, that the conference had gone through the silk and rayon schedules, picking out the highest rates adopted by either House, and agreeing on them in each important instance. The consequence, if the rates become law, will be an increase of about \$50,000,000 in the yearly clothing bill of the American people.

Although it has been shown that the rayon industry in the United States is dominated by foreign capital, and although Senators stated during the debate on the floor, that the present rates virtually amounted to an embargo on imports, the conference went the limit on every substantial item, except rayon in band and strip. The conference are limited in fixing rates in the zone between the House and the Senate.

In the case of silk they also were able to agree promptly on the higher rates, except on ribbons and fabrics.

A minimum duty of 45 cents a pound on rayon products, which Senator Wheeler denounced on the floor as "unconscionable," and which he said, will amount in some instances to a duty of more than 100 per cent of the value of the product, was adopted by the Conference Committee in nearly every schedule. The following are the rates agreed on:

Additional duty on piled yarn, 45 cents a pound, and on spun rayon yarn 12 1/2 cents a pound; minimum duty on sewing thread, 45 cents a pound; rayon bands or strips, 40 cents; woven fabrics, 45 cents a pound and 60 per cent ad valorem; pile fabrics, 45 cents, and articles made therefrom; 60 to 65 per cent ad valorem; fabrics with fast edging, 45 cents a pound; 60 per cent ad valorem; knit fabrics in the piece, 45 cents and 60 per cent ad valorem; gloves, hose and underwear, 45 cents and 65 per cent ad valorem (one of the extremely high rates); handkerchiefs, 45 cents and 60 per cent ad valorem for unhemmed, and 65 cents for hemmed; clothing, 45 cents and 60 per cent ad valorem.

As will be seen from the foregoing, the effect of the resulting from the adoption of the high rates will fall most heavily on women and girls who use rayon as a substitute for the costlier silk.

Straw Hat Duty Increased on Compromises.

By the Associated Press
WASHINGTON, April 15.—Increased duties on straw hats were agreed upon today by the congressional tariff bill conferees.

The duty on blocked and trimmed but not sewed hats was fixed at \$3.50 a dozen and 60 per cent ad valorem compared with 50 per cent in existing law. This was a compromise between 78 per cent provided by the Senate and \$4 a dozen and 50 per cent provided in the House bill.

Sewed straw hats were made dutiable at \$4 a dozen and 60 per cent, which is the House rate. The present tariff is 60 per cent on men's sewed straw hats valued over \$9.50 a dozen and 88 per cent on lower values. The Senate had fixed 88 per cent on all values.

A reduction from 50 to 25 per cent in the duty on hats made of rayon, not blocked, trimmed, dyed, bleached, colored or stained, was agreed on, as were the following

Offices of the South Side National Bank said Frentrup had borrowed less than \$10,000, which he had repaid.

Other debts agreed on in the paper schedule were: Manufacture of pulp not specially provided for, 30 per cent, now 25 per cent; transparencies, 40 per cent, now 26 cents a pound; same in more than five printings, 50 per cent, now 25 cents a pound; plain wall paper, 45 cents a pound and 10 per cent, now the same; printed wall paper, 30 cents and 20 per cent; plain cover paper, 30 per cent; plain cover paper, 30 cents and 10 per cent.

Three men are indicted

FOR HOFFMAN KIDNAPING

Two Members of Gang Are Rearrested While the Third Is Sought.

An indictment charging kidnaping has been voted by the St. Louis County grand jury against Joseph Sinevich, Claude Gillman and John Pepe in the abduction of James Hoffmann, bookmaker.

Hoffmann was captured in a five armed and masked mob in downtown holdup, last Feb. 13.

After being a captive for 44 hours, Hoffmann was rescued when Sheriff Lill and St. Louis police swooped down on Sinevich's resort, "Bay Leaf Grove," in St. Louis County.

The indictment, voted yesterday,

was announced today after Sinevich and Gillman were rearrested.

Officers of the South Side National Bank said Frentrup had borrowed less than \$10,000, which he had repaid.

PASTOR IS UNABLE TO SHED NEW LIGHT ON MURDER PLOT

Dr. Bass' Lawyer Says Dentist Told His Minister Nothing of Plan to Kill Pearman.

KNEW ONLY OF EARLIER SCHEME

Columba Preacher Had Advised That Insurance Conspirator Be Sent to an Institution.

By a Staff Correspondent of the Post-Dispatch.

COLUMBIA, Mo., April 15.—The Rev. Carl Agree, pastor of the Christian Church of Columbia, to whom Dr. A. J. Bass, wealthy retired dentist and church deacon, told his troubles several months ago, "knows nothing that will shed any new light on the situation," according to a statement issued yesterday by Boyle G. Clark, Dr. Bass' attorney.

The letter said in the 1928 presidential campaign, "the man opposed to prohibition was defeated and the candidate who said 'I wish it to succeed' was elected."

"The Government has a just right to be backed by well organized public opinion," the letter added. "The President deems law observance and enforcement 'the dominant issue' of his administration."

Chairman Caraway today wrote Bishop Cannon that he would be given opportunity to appear to reply to charges made by Tinkham.

The Bishop had written Caraway

that he would be glad to appear if there was any information the committee desired concerning the activities of the Southern Methodist Board of Temperance and Social Service.

Caraway replied that he had indicated that the best time for his testimony

would be between April 28 and May 2.

Told About Dorsey Plot.

"Lester Bass told Dr. Agree of the plot to kill Pearman for his insurance," he said. "He explained that he had obtained Dr. Lewis' gunmen to kill Bass. He stated that the plot was not carried out, and that the gunmen were insisting that they were ready to perform their part of the transaction, and that he must pay them."

"He stated to Mr. Agree that the gunmen were harassing him and that he was in fear of his life. He told stories of how they were calling him up and following him and insisting on their money. Mr. Agree did what he could to pacify them.

He talked to him for the purpose of allaying his fears.

He explained the matter with Mrs. Bass and advised Mrs. Bass to take steps to have Dr. Bass committed to an institution."

Meanwhile, the Rev. Mr. Agree accompanied Dr. Bass on a trip to St. Louis but was not present at a conference with gunmen, as the doctor has said, in his confession. Afterwards, according to the statement, Dr. Bass told the pastor that he had satisfied the gangsters by a payment of \$4000.

After their return to Columbia, Dr. Bass complained of continued harassing tactics by the gangsters, and Mr. Agree had further discussions with Mrs. Bass as to his general condition. He noted considerable improvement in Mrs. Bass' spirits.

Mr. Agree felt that maybe since he had confided in him and confessed his fears and gotten the matter so to speak "off his chest" with reference to Dorsey that he would get permanent relief. Later Mr. Agree began to see less of Bass.

Barron Called on Pastor.

During the period that the Pearman insurance fraud was being organized, with Pearman posing as William Folia, land dealer, in order to buy insurance, Dr. Bass did not often talk to Mr. Agree.

He told the pastor that he had his Arkansas land to a man by the name of Folia and expressed satisfaction that he had at last made a deal that had gotten rid of the land that had caused him so much trouble and worry.

A short time before Pearman was found to be deathly ill, Dr. Bass, the doctor's friend, Walter F. Barron, called on Mr. Agree and told him that he was afraid that Bass was getting involved in something again that would cause him trouble; that Bass had come to him and asked him to permit Folia to have his mail sent to 4228 McPherson Avenue, Barron's address in St. Louis.

Barron did not know what Bass was up to, said the statement, "but was suspicious of his actions, and could not understand why Agree desired to send mail to his address, or why Bass should ask permission to do so. He wanted Mr. Agree to talk to Bass and dissuade him from whatever he was doing."

Mr. Agree did not see Bass any more. He did not get a chance to talk to him about what Barron told him."

Admission of Complicity Filed in Insurance Cancellation Suit.

PEPPER CITY, Mo., April 15.—A formal statement by Dr. A. J. Bass admitting complicity in the Pearman-Folia insurance plot was

Heiress Elopement With Playwright

29 REPORTED INDICTED IN MOTOR STOCK SALE

Bill Returned Secretly After U. S. Inquiry of St. Cloud (Minn.) Company.

By the Associated Press.

ST. PAUL, Minn., April 15.—A secret indictment in which 29 persons were reported named, was returned today by a Federal grand jury in connection with the investigation of the Diamond Motor Parts Co. of St. Cloud, Minn.

Investigation on stock-selling activity of the company was alleged to have disclosed that 5000 investors in 11 states were fleeced of approximately \$2,000,000. The firm's physical assets are owned by the Aluminum Industries, Inc., of Cincinnati.

Postoffice inspectors said contacts with prospective stock buyers were made from the same mailing lists used by promoters of the Pan Motor Co. of St. Cloud, which failed

12 years ago.

Japanese at White House.

WASHINGTON, April 15.—The four Japanese girls in the United States, voicing the greatest discontent in the country, for aid extended by America in the Japanese earthquake were received today by President Hoover. They were unable to see Mrs. Hoover, who was indisposed with a cold.

"INSIDE INSIDE" STORY OF MOUNDS GAMBLING RESORT

Continued from Page One.

two St. Louis men whose gambling led to jail, said he had "met Willie the other day, and he said that when those two birds got caught, he lost two of his best customers."

Chief Kaiser asked whether Gleason told him the amount of losses of the two men. Oliver D. Chalmers, who deposited to his personal account checks for \$12,700 due his employer, the Frisco Railroad, and Marvin E. Phillips, assistant cashier of Scruggs-Vanderpoel-Barney Bank, held for a \$21,000 defalcation. He said one son told him Chalmers had lost not more than \$20,000 at the Southern Club. McQuillan said neither of the two was a "regular" at the Mounds, but he thought Chalmers had been there once.

McQuillan, 34 years old, has curly brown hair and a florid face. He was wearing a light blue suit with shirt and collar of contrasting color.

"He's sitting pretty," he asserted. "He can't count, and now I guess he'll be running the State." He added Murdock had been active in the Republican gubernatorial primary.

The plover, he explains, may be seen about St. Louis in spring but not in fall, since, for its return to the South, it leaves land at Nova Scotia and is not reported to touch land again north of the Brazilian coast.

The bald eagle, perched on a muskrat house at the side of a small lake, was eating fish. In his day's tour of St. Charles County lakes, Pough saw 58 species of birds, including nine species of wild ducks.

Filed in Federal Court here today by counsel for the Lincoln National Life Insurance Co. of Fort Wayne, Ind., in connection with its suit to cancel the four \$50,000 policies issued to Pearman under the alias of Folia.

The statement acknowledged receipt of a voucher for \$3162, the amount which Dr. Bass had paid as first annual premium on the policies, and admitted that the policies "were procured through the joint frauds of myself and William Robert Pearman of Columbia, Mo., and as William Folia of Martinsburg, Mo."

Inasmuch as the policies have been returned to the company and the premium refunded, it is expected that the insurance will be formally canceled without contest.

HEAD OF CONCERN WITH 4 DOWNTOWN GARAGES IS OUSTED

Stockholders of Associated Motor Terminals Relieve William King of Duty in Refinancing Move.

William King, young promoter who established the Associated Motor Terminals which owns and operates four large downtown garages valued at about \$1,500,000, has been relieved of all duties and authority in the business and has been allowed to retain the presidency. His salary of \$800 a month has been stopped.

The company conducts the Broad-Wal Garage, Broadway and Walnut street; Seven-Wal Garage, Seventh and Walnut streets; Jefferson-Plaza Garage, Thirteenth and St. Charles streets and Seven-Mor Garage, Seventh and Morgan streets. King has visualized a system of low-cost parking for the whole downtown area.

King has moved his financial company to a new building at 117 South Broad, formerly the Planters Building. Formerly he controlled the Terminal Company through the class B common stock, but because dividends were not paid on the 2500 shares of preference stock it was possible for stockholders at the recent annual meeting to oust him.

J. S. Llonberger New Head.

Opponents of King were led by E. M. Grossman, an attorney and holder of a considerable block of stock. He has become chairman of the Executive Committee, with E. H. Bunnell, comptroller of the Frisco Railway, and I. T. Vierheller as members. Some of the enlarged board of directors remain friendly to King. The new chairman has employed John S. Llonberger, operator of the Eighth Street Garage, as managing director of the Terminal Company.

Several Agencies Investigating.

A detailed investigation of Fred Wilson, an architect working for the Treasury Department, was followed by an announcement that his alibi had been found to be without flaw.

The Washington homicide squad was ordered to abandon every other case and concentrate its efforts on solving the Peeler mystery.

Three other agencies were cooperating in the investigation. The Department of Justice and the army, the last because of the fact that the body was found on an army reservation.

Miss Baker's automobile, streaked with blood, was found abandoned near the cemetery on Saturday morning and after a long search her body was discovered in the culvert half a mile away. She was employed at the Navy Department.

Stockholders' meeting has been called for Thursday to determine whether they will subscribe to a proposed \$250,000 second mortgage bond issue, at an average amount of \$15 a share of preference stock. Unless bonds are sold by April 26 to provide money for the following items, the meeting notice advises, the entire investment of the stockholders will be lost: \$72,000 due by May 1 on first mortgage bonds, \$1,000 to save noncancelable property of the company from foreclosure; about \$5,000 to pay off small current creditors and a substantial amount for working capital. Persons active in the management now say the company owes about \$22,000 in delinquent taxes and about \$100,000 for operating debts and money said to have been put in the business.

\$26,947 Deficit in Year.

The company had a net operating deficit of \$26,947 in the fiscal year which ended Feb. 28. Its liabilities total \$1,564,288 and the capital account is said to show a \$275,000 surplus.

King's friends, in his absence from the city today, described the proposed new bond issue as a step to catch up with financing not provided when the enterprise was established several years ago, and largely needed to dispose of obligations incurred in garage construction. King's friends say the stockholders are certain to subscribe for new bonds and the new management is hopeful of the same result.

Management of the business has been placed in charge by the Grossman group. King's friends say he was assured to give his critics a chance to try the management. Both sides agree the business is a lucrative one, which should show a profit this year, and they are anxious to keep it on its feet. There are between \$50 and \$100 stockholders, mostly having small investments and numerous holders of the \$400,000 in first mortgage bonds and \$55,000 in land trust certificates.

One concern of the new management is to study the financial relationship of the Associated Motor Terminals and William King & Associates.

McQuillan, 34 years old, has curly brown hair and a florid face. He was wearing a light blue suit with shirt and collar of contrasting color.

"He's sitting pretty," he asserted. "He can't count, and now I guess he'll be running the State." He added Murdock had been active in the Republican gubernatorial primary.

The plover, he explains, may be seen about St. Louis in spring but not in fall, since, for its return to the South, it leaves land at Nova Scotia and is not reported to touch land again north of the Brazilian coast.

The bald eagle, perched on a muskrat house at the side of a small lake, was eating fish. In his day's tour of St. Charles County lakes, Pough saw 58 species of birds, including nine species of wild ducks.

If I Were A Young Doctor

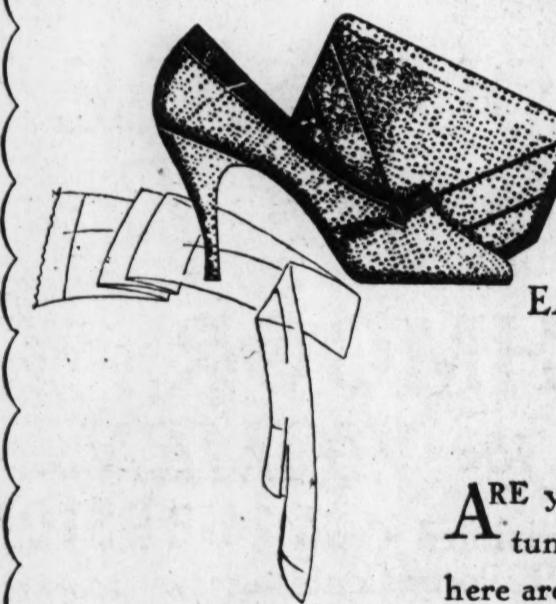

I'd practice the modern version of the rural practitioner who drove furiously about the country until everybody thought he had a large practice.

I'd have a well-furnished office and a good-looking assistant to greet patients. I'd wear PEMBROOK \$50 clothes that fairly radiated success. I'd wear a roll brim Knox Hat because it looks dignified and substantial. My neckwear would be a richer silk than the average man wears. I'd have tan J & M Shoes to wear with my light suits and black ones to go with dark ones. I probably would have my shirts made to measure at Woolf Brothers, or wear the finest quality Manhattans. People are prone to judge by appearances, and I would want them to have confidence in my knowledge, skill and ability.

STATE OFFICIAL CENSURED OVER YOUNG COLLAPSE

Securities Commissioner Stockard Declared Remiss by the Better Business Bureau.

State Securities Commissioner Stockard's failure to look into the conduct of the brokerage firm of W. H. Young & Bros., Inc., which collapsed March 24 with \$2,000,000 of its worthless stock in the hands of the public, is criticized in a resolution adopted at a special meeting of the board of directors of the Better Business Bureau at the Missouri Athletic Association yesterday afternoon.

The directors have been advised through competent counsel, the resolution declared, that the Securities Commissioner, under the present blue-sky law, "has ample power and it is his express duty to make examinations and investigations of questionable financial enterprises whenever sufficient evidence has been presented to him to warrant such examination and investigation."

Asked Three Times to Act. Ample information regarding the condition and practices of Young Bros. was in Stockard's hands months before the failure of the brokerage firm, and the Better Business Bureau requested Stockard, at least three times, to examine the affairs of the company, the resolution sets forth, then continues:

"The failure on the part of the State Commissioner of Securities to act has resulted in a considerable loss of money to the clients of W. H. Young & Bros. and a loss of confidence in the Missouri securities act by those who have naturally and properly regarded the act as a statute designed to protect the citizenry of our State."

The directors of the Better Business Bureau call upon the Governor, the Secretary of State and the Securities Commissioner, a subordinate of the Secretary, "to correct a condition which, if allowed to continue, will inevitably result in future losses through fraudulent ventures."

"On Thinnest Ice." A digest of the correspondence which passed between Commissioner Stockard and the Better Business Bureau was published exclusively in the Post-Dispatch, March 25, showing that Stockard permitted the firm to operate in Missouri until it collapsed, although he knew as far back as last summer that the firm was skating on "the thinnest ice," as Stockard expressed it.

The case against William H. and Fred C. Young, officers of the firm, charged at Lamar, Mo., with illegal sale of the preferred stock of their company to two residents of Barton County, was continued yesterday until the September term of court. The brothers are under \$5,000 bond there. They are under \$16,000 bond here to answer to any charges that may be filed against them in the State of Missouri, and are under investigation by Federal authorities to determine if they mislabeled the mails.

Commissioner Stockard, at his Jefferson City office today, declined to comment on the resolution passed by the Better Business Bureau. Secretary of State Becker, under whom Stockard serves, was not in Jefferson City.

RAIN, ELECTRICAL STORMS IN MISSOURI AND KANSAS

Street Lights at St. Joseph Put Out When Lightning Strikes Transformers.

By the Associated Press.
KANSAS CITY, Mo., April 15.—Much-needed rain, accompanied by electrical storms, fell in Missouri and Kansas yesterday and last night. Wichita had a light afternoon shower, but clearing skies dispelled immediate hope of sufficient moisture in the dusty places. Rain and hail fell between Burrton and Halstead, Kan., near Hutchinson, and several automobiles slipped off the highways.

St. Joseph, Mo., and Kansas City received heavy rains last night following showers Sunday and yesterday that barely settled several weeks' accumulation of dust. Street lights at St. Joseph were extinguished when lightning struck two transformer stations.

HOUSE BOAT DWELLERS HELD FOR CRUELTY TO GIRL, 6

Mother Admits Tying Her Ropes and Says Stepfather Scorched Her Back.

After neighbors had been aroused by the screams of Betty May Abrams, 6 years old, living on a houseboat moored below the Free Bridge on the Illinois side of the Mississippi River, East St. Louis police last night arrested the child's mother, Margaret Abrams, and step-father, William Abrams. They are charged with cruelty.

The child, who has bruises on her arms and rope marks about her wrists, said that her step-father held a burning piece of paper close to her back. Her mother confirmed her story but Abrams, who is on parole from the Pendleton, Ind., reform school, denied it.

The girl related that her mother frequently tied her up and that she was whipped often with willow

switches. The mother said she tied her to prevent her from going into the cabin and eating between meals.

UNION TREASURER HELD UP, ROBBED OF \$685 IN FUNDS

Henry Mitchell Loses Receipts From Painters and Decorators at Arsenal and Virginia.

Henry Mitchell, 3246 Arsenal street, treasurer of the Brotherhood of Painters, Decorators and Paper Hangers of America, returning home from a meeting of the union at Grand and Page boulevards, alighted from a Tower Grove street car at Arsenal street and Virginia avenue and was held up by two armed men who robbed him of union receipts, \$685.55 cash and \$30 in checks, at 10:45 o'clock last night.

The robbers escaped in a Ford coupe, driven by a third man. Mitchell boarded a passing automobile driven by Milton Russell, 2138 Nebraska avenue, and gave chase.

At Compton avenue and Longfellow boulevard one of the robbers left the car and fled on foot. At Compton and Longfellow another robber did likewise.

At St. Vincent and Pennsylvania avenues the man remaining in the robbers' car stopped it at the curb, turned out the lights, donned a mask and waited with a drawn revolver for Mitchell and Russell.

"Listen: you'd better beat it if you know what's good for you," he told the pair of pursuers. Mitchell and Russell turned back in search of a policeman and when they returned with one the man and the car were gone.

Demands Newsdealer's Money Bag, Captured by Policeman.

Stanley Farber, 1716 Waverly place, a newspaper dealer, was chasing his collections at Grand boulevard and Arsenal street when a man, with one hand thrust into a pocket, ordered him to "Put the money in a bag and give it to me."

Instead of obeying, Farber called to Traffic Policeman Clarence Mueller, who was on an opposite corner. Mueller caught the man after he had jumped into a street car. The man had a rusty, unloaded revolver in his pocket. He denied intending to hold up Farber.

Joseph M. Hilbert, confectioner at 2700 Potomac street, was held up and robbed of \$14 by an armed man. Before the robber could depart a customer entered for a loaf of bread. Under the pretext of getting the bread, Hilbert went to a back room and obtained his revolver. He fired three shots as the robber fled. The robber escaped. One of the shots broke a display window of the store.

Recognizes Stolen Clothing. Shopping downtown, Mrs. Elsie Kraft, 4227 Botanical avenue, recognized on a woman passerby, a necklace and tan waist and blue kid gloves, which she had left at home in a burglary April 10. Mrs. Kraft called a policeman and had the woman and her companion, an ex-convict, arrested. They said they had bought the stolen articles.

Burglars stole jewelry valued at \$550 and \$5 cash from the home of Mrs. Emma Moeller, 4265 Holly avenue, and \$150 of jewelry from the home of Mrs. Charles Tierney, 4946 Arlington avenue.

Mrs. Margaret Coffin, 8346 Clemens avenue, reported missing a diamond bar pin valued at \$50 on her return home from a party at North Hills Country Club.

Mrs. Mary V. Ryan, 3534 Arsenal street, shopping downtown, was robbed of \$25 and a United States Treasury Certificate for \$625.

OCULISTS URGE
CARE OF EYES

Your eyes are your most valuable possession, and the most delicate and most likely to suffer damage. If they are tired or give you pain see your oculist at once to prevent serious difficulty.

Oculists recommend washing the eyes with Iris. It not only helps prevent infection, but contains healing oils which soothe the tender, irritated membrane. For use after strain, or when eyes are inflamed from smoking or motoring. In two sizes in sterile flasks with eyecup, 50¢ and \$1.00, at Walgreen Drug Stores and at all drug and department stores everywhere.

Oil Man's Own Story
How He Became Friendly
With His Mexican Captors

J. E. Bristow Taught Them to Play Poker, and to Please Bandits Sang American Hymns.

This is the fourth installment of the story of J. E. Bristow of San Angelo, Tex., who was held 30 days by Mexican outlaws. In his first article he told of his trip into a Mexican wilderness to examine a mine. In the second he related his seizure by bandits. In the third he told how he spent over a year of death. The story was told by Bristow to Merle Blankley of the Oklahoma City Times. Blankley accompanied Bristow's son, Obie Bristow, and another American when they went into Mexico to pay the ransom.

MAZATLAN, Sinaloa, Mexico. April 15.—I didn't sleep long. At about midnight someone shook me roughly. I blinked my eyes, looked into the half-darkness and saw the ugly face of Flores loering at me. It was six days before the ransom messenger could get to Tepic and return. He had been gone only a few hours. The thought gripped me that my hour had come—that the outlaws had decided to drop the ransom game and keep me.

This thought drained strength when I sat up and surveyed the scene. There, in a circle around me, were the bandits, all armed. Small eyes peered out from heads reduced to the size of billiard balls by the contrast with the huge, flopping sombreros. All of them were Mexicans except Charles Fields, my interpreter, who sold out to the bandits in the hope of getting a share of the ransom.

Fields was angry because I hadn't given him two checks, signed in blank, during our negotiations earlier in the evening. This time I had to hit the chisel. The bandits closed in, poised a dozen guns and pistols in my ribs and Fields told me to sign the checks. I signed. Fields mounted a burro and went down the mountain.

Told to Mount Burro.

I was along with a gang of outlaws who couldn't speak a word of my language. I couldn't speak a word of theirs.

Although it was late there was no more sleep that night. Delgado gave an order and the peons scurried around packing the grub on board. They motioned for me to mount a burro. I did, and one of the outlaws mounted back of me.

I don't see how those little donkeys carry the loads they do. The one I got on apparently had the same idea. He planted his legs firmly in the ground—and refused to move. The bandit beat, pushed and cursed him, but he planted his feet deeper in the ground, laid back his ears and refused to budge.

I think we would have been there on that mountain side to this day if we had waited for that stubborn donkey to change his mind. After I got back to Mazatlan I told Obie he ought to have had that

Gold to Mount Burro.

It was a good night for the outlaws who couldn't speak a word of my language. I couldn't speak a word of theirs.

Continued From Preceding Page.

didn't add any comfort. It was just a rocky, desolate mountain-side. Here and there ghostly looking cactuses reached gnarled and skinny arms to the sky. There was a chilly feeling around my spine.

We rode on through the night, grew weak, by noon I didn't know

whether I could hold out or not, but we kept on until sunset. During the day we had gone down one mountain and scaled the side of another. That mountain must have been 5000 feet high and it seemed to me we went straight up most of the time.

Sure-Footed Burros.

FRECKLES

How to Have a Gardenia-White Skin, Free from All Freckles

No more rusty disfiguring freckles! No matter how numerous of stubborn your freckles may be, you can now banish them in only a few days! With a jar of Othine double strength you can laugh at the sun!

Othine is a salve that will work of those unsightly blemishes. Just spread a little of the dainty white cream over your freckles for two or three nights before retiring and wash what happens. The lighter freckles may begin to vanish even the first day. In a few days more, every freckle should be gone! Your skin will be as delicately white and soft as a gardenia petal. Not a trace of those ugly little specks of pigment!

All drug and cosmetic stores sell Othine. But be sure to ask for the double strength as this is sold with guarantee of money back if it does not remove even the worst freckles and give a beautiful complexion.

mountain that my respect for bunnies began to increase. These stubborn little animals, once they get started, apparently can go on forever. And they never lose their footing. Time after time during that first day's ride the burros picked their way through places that looked like plain suicide.

Shortly before sunset the caravan halted and pitched camp. Pitching camp among these out-of-the-way places is a task of lighting a fire and spreading a blanket. After this had been done they cooked a mess of grub and we ate.

The long day's journey under the blistering sun had been almost too much for me. I couldn't eat. Later, when the supplies were gone and there was nothing but bread and water, I looked back on that day and wondered how I could have refused food. Again that night two outlaws stood watch while I slept. I was so tired, however, that even the thought of being stabbed in my sleep didn't keep me awake. I didn't wake up until the sun was rising.

The next day was like the preceding one, except that we didn't travel so far and the going was easier. That afternoon we found some shade and made camp there.

That night marked the first appearance of comradeship relations between myself and my captors. I had discovered that most of them weren't such bad fellows—just poor, downtrodden unfortunate who made their living by banditry because there wasn't anything else to do.

Cards the Only Luxury.

There were two young men in the band who seemed to go out of their way to see that I was made as comfortable as possible. After dark we sat around the camp fire and Delgado, the chieftain, produced a deck of cards. They looked like they had been in service since Cortez took Mexico in the name of Spain. The cards, however, were the next luxury this mountain band possessed.

Delgado and some of his men knew how to play a few games. Eventually I taught them how to play poker. That was the only diversion we had. There were no stakes because none had any money.

After a few hands of cards the Mexican tired of the game. Delgado, in an unearthly voice, started singing. Others joined him. I couldn't make out the words, but I could tell from the tune that it was religious.

Then Delgado indicated he would like for me to sing, too. I sang a few hymns. "Shall We Gather at the River," "When the Roll Is Called Up Yonder" and a few others of that type. The voice, like Delgado's, wasn't so good, but I put all the feeling I could muster into the singing and the outlaws seemed to like it. For nights after that I had to sing these same old hymns over and over.

The singing lasted more than an hour. Then the bandits, one by one, lay down on their blankets and went to sleep. Finally it was just Delgado and I. He would sing a song. Then I would. Finally, after a conversation in signs, I convinced this outlaw chieftain that I wouldn't try to escape during the night. We laid down and slept. It was the first night I had gone to sleep without having hostile eyes staring at me.

In the next installment Bristow will tell more of his experiences after the Mexican Federal troops began pursuit of the outlaws.

Bristow Says Mexican Army Men Saved His Life.

By the Associated Press.

NOGALES, Ariz., April 15.—Returning to the United States yesterday, Bristow, San Angelo (Tex.) oil and mining man, credited Mexican army officers with saving his life while he was in the hands of bandits in the mountains of Nayarit for more than a month.

Bristow explained that while he was held captive the Mexican army men rescued the father and another relative of Cruz Delgado, the bandit chief, and held them as hostages for the release of the American. "I think that saved my life."

Gen. Pablo Rodriguez, commander of the Federal troops in Nayarit, and Col. Figueroa made the capture of Delgado's relatives.

Bristow said that Rodriguez, E. W. Eaton, P. S. Vice Consul at Mazatlan, and German Consul Eugene Hildebrandt at Tepic did everything possible to obtain his release.

SCHOOL STRUCK BY LIGHTNING DURING BOARD MEETING, BURNS

Ten Persons Escape Unhurt at Doniphan, Kan.; Building Erected in 1872.

By the Associated Press.

DONIPHAN, Kan., April 15.—The schoolhouse at Doniphan was destroyed by fire last night after being struck by lightning while the School Board of 10 persons was in session within. All escaped uninjured. Heavy rain prevented outside fire equipment from coming here.

The building was an old eight-room brick structure. It was erected in 1872 and was valued at \$40,000. Insurance amounted to \$7800. The building had housed both high and grade schools. The grade school was to close next Friday. It was expected the high school will be quartered in the town hall until the end of the school year.

TO SPEED UP LACLEDE CARS

The Public Service Co. announces that effective tomorrow running time of street cars on the Laclede line, route 52, will be reduced by the elimination of several stops. The new schedule will give the cars a speed of 18.25 miles an hour for the run, including stops.

Stops to be discontinued are at Twenty-second street, Leonard avenue and midway between Spring and Grand, Newstead and Boyle, Taylor and Newstead and Euclid.

ST. LOUIS POST-DISPATCH

HALPIN HEIRS LOSE SUIT FOR A NEW EXECUTOR

Petition to Have Mercantile Commerce Bank Ousted Temporarily Denied.

The petition of collateral heirs of Thomas Halpin, millionaire druggist, whose will they are contesting, to temporarily revoke the authority of the Mercantile Commerce Bank and Trust Co. as executor under the will and appoint an administrator pendent lite, was denied today by Probate Judge Holtcamp.

Although the will contest is in the Circuit Court the administration of the estate is within the jurisdiction of the Probate Court and consequently it was necessary to present to that court the petition in regard to a new administrator.

John S. Leahy, attorney for the principal beneficiaries, and Guy A. Thompson, representing the executor, contended the plaintiffs were not properly in court, as even if the will was revoked, the estate could be divided according to law in equal parts among his three adopted children, two of whom, Mrs. Joseph Hackman and Redmond W. McBride, were named as chief beneficiaries. The other, Redmond McBride, is entitled to a monthly allowance from the estate under the terms of the will. Douglas H. Jones and Thomas D. Cannon, counsel for the petitioners, asserted that he McBrides and Mrs. Hackman were not legally adopted and hence were not heirs-at-law, being stepchildren of Halpin.

Holtcamp said no evidence was introduced that the contestants have an interest in the estate, nor was evidence produced to show that the stepchildren were not legally adopted. Counsel for the latter pointed out that in several places in the will the testator spoke of these heirs as his adopted children.

Included in the estate is realty at 317-19 North Grand boulevard. For years Halpin conducted a drug store in his building at Grand boulevard and Olive street. He died Dec. 10, being 86 years old. Plaintiffs in the will contest are great-grandchildren of John Halpin, a brother of Thomas Halpin's father.

ITALY FREES 2 NATURALIZED AMERICANS FROM ARMY

One Drafted Into Service on Visit to Old Home; the Other Lacked Proper Credentials.

WASHINGTON, April 15.—Release of two Italian citizens from the Italian army into which they had been drafted has been reported to the State Department today by Noble Giacomo de Martino, Italian Ambassador.

The two men are Costanzo Marini, of Mt. Vernon, N. Y., and Antonio Pizzucco, New York City.

The Ambassador told Acting Secretary of State Cotton that Marini was erroneously drafted into the Italian army through a misunderstanding of the authorities of the city which he visited in Italy during a recent trip.

Pizzucco, the Ambassador said, was drafted into the army because he did not show the necessary evidence to prove that he was exempt from military service.

The Ambassador's call was made at his own suggestion to acquaint this Government of the manner in which the long-troublesome question of the naturalized American is being dealt with at present by the Mussolini Government.

HOOVER THROWS FIRST BALL, OPENS SEASON

President Sticks to Eighth Inning Though He Meant to Leave Early.

By the Associated Press. WASHINGTON, April 15.—A slight lack of control in throwing out the ball—which opened the American League baseball season in Washington yesterday did not mar President Hoover's enjoyment of the game between the Washington Senators and the Boston Red Sox.

Presented with a new ball by Walter Johnson, manager of the Washington team, the Chief Executive was unable to throw it to Umpire-in-Chief Van Graffan, when a member of the corps of photographers and news reel men lined before the presidential box yelled "Hold it, please!" Obligingly the President "held it."

The umpire could not reach the ball and it bounded into the ranks of the Boston team, who up behind the President, laughed with the crowd and sat down.

Slightly indisposed by a cold, and having an evening engagement to address the Daughters of the American Revolution at their annual congress, President Hoover had planned to stay for only the first inning. But the inning was short and he remained in his seat.

Sam Rice, right fielder for the Senators, had scored in the inning, however, on Cronin's hit to right field. The President smiled and applauded.

A Generous Fan.

With the second half of the inning, the President enjoyed a hearty laugh. The crowd divided itself, some boozing and others applauding, as a fan with the good of the club at heart threw into the field a foul ball he had caught in his front row seat along the left field line.

Again, when a Boston player on the coaching line tossed a retrieved foul into the Washington pit, the President laughed again as the umpire, deserting his post behind the catcher, yelled over, "Hey, let's see that ball," and with the ball again in his possession, added sarcastically the rudimentary instruction that "balls are thrown to the umpire."

As the second half of the third came, President Hoover, warming up to the game, took off his brown top coat, and resumed attentive watch of every play. He conversed but little during the game, though he smiled frequently.

In the presidential box were Vice President Curtis, Secretary of the Treasury Mellon, Attorney-General Mitchell and Mrs. Mitchell, Secretary of Agriculture Hyde, acting Secretary of State Cotton, acting Secretary of Navy Jahncke, and Secretary of Interior Wilbur, together with the President's four secretaries, George Akerson, Walter Newton, Lawrence McKinley and French Strother, and Capt. Joel T. Boone, the White House physician.

CHALMERS' EMBEZZLEMENTS FROM FRISCO TOTAL \$122,700

Audit of Accounts of Former Mail Traffic Manager Is Completed.

The embezzlement of Oliver D. Chalmers, manager of mail and express traffic for the Frisco Railroad, during four years that he cashed company checks and spent the proceeds gambling, totaled \$122,700. E. T. Miller, vice president and general counsel of the railroad, said yesterday at the conclusion of an audit.

Chalmers admitted Friday that he had deposited to his own account checks given to the Frisco by the Post-Dispatch, the Globe-Democrat and the Kansas City Star for carrying papers in baggage cars and estimated that the total "might exceed \$10,000." The audit, according to Miller, showed that the railroad lost \$44,885 on Post-Dispatch checks, \$44,909 on Globe-Democrat checks and \$22,928 on Kansas City Star checks.

Chalmers, who is 38 years old and lives at 4536A Shenandoah avenue with his wife and daughter, has announced he will plead guilty.

CAPT. M'KINLEY OF BYRD'S PARTY ARRIVES IN U. S.

By the Associated Press. SAN FRANCISCO, April 15.—Three members of the Byrd expedition—Capt. C. A. McKinley of St. Louis, Capt. A. N. Parker of Crystal Springs, Miss., and O. A. Scherer of Chicago, returned today on the liner Marconi from the Antarctic via New Zealand. Capt. McKinley, aerial photographer, and one of the four men who flew across the South Pole, was accompanied by his wife, who joined him in New Zealand.

Capt. Parker was one of the expedition's airplane pilots. His work is finished. Capt. McKinley and Thorne, the latter chief of the expedition's surveyors, still have months of work ahead of them, making maps from the aerial photographs and surveys they have made, checking against each other's data.

Tennessee Socks Standard Oil Bar.

By the Associated Press. NASHVILLE, Tenn., April 15.—The State of Tennessee brought action in Chancery Court today, seeking to oust the Standard Oil Co. of Louisiana from the State with process for perpetual injunction. Violation of the antitrust act of 1903 and the antem童atory act of 1927 was alleged.

NEPOTISM RULING CAUSING CONCERN AMONG OFFICIALS

Thirty Requests for Opinions Received by Attorney-General From Those Who Appointed Relatives

By the Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, April 15.—The Missouri Supreme Court decision holding the antinepotism amendment to the State Constitution was self-enforcing and had been operative since its adoption in 1924, is causing considerable concern among State, county and municipal public officials who have violated its provisions by appointing relatives to public positions and who now are uncertain whether they are legally entitled to retain their offices.

Since the Court delivered the decision last Tuesday, Attorney-General Stratton Sharrel has received more than 30 requests for opinions on application of the court decision to specific cases. Several county and municipal officials have requested opinions as to whether they should resign.

A motion for rehearing of the antinepotism case will be filed, it is understood, as is the usual practice of the loser in most cases before the Supreme Court. The decision, written by Judge J. T. White, in court en banc, was concurred in by all of the other Judges except Chief Justice W. T. Ragland, who dissented.

Opinions Being Prepared.

The amendment was drafted by the constitutional convention of 1922 and 1923, and was adopted, together with several other amendments, in a special State election in February, 1924.

It prohibits any public officer or employee of the State, or any political subdivision of the State, from appointing any relative within the fourth degree by blood, relationship or marriage, to any public position. The amendment provides such an appointment "thereby forfeits" the office or employment of the person making the appointment.

Sharrel's department is preparing one opinion defining the limits of the relationship described in the amendment, which is "any relative within the fourth degree, either by consanguinity or affinity."

Another opinion is being prepared on the question of whether an appointment of a relative to a member of a board, bureau, commission, county court or similar administrative group, by the administrative group as a whole instead of by the individual member, constitutes a violation of the amendment.

Suits Not Expected.

It has been the practice to some extent for members of State boards, bureaus or commissions, who desire to place a relative on the public payroll, to have the appointment made by the board or commission as a whole, on the theory this action would clear the individual member from any responsibility under the amendment. Similar practices have been followed by county courts, school boards and road district boards, it was said. Municipalities, counties, school and road districts fall within the meaning of political subdivision of the State.

Preliminary research on the point indicates such an appointment by a board or commission is as contrary to the intent of the amendment as if the appointment was made by the individual member whose relative was involved, it was said, but a further check of legal authorities is being made before the opinion is issued by the department.

Attorney-General Sharrel said he did not believe many suits would be filed, if any, in the various political subdivisions, to oust officials who were violating the provisions of the amendment before the Supreme Court decision was announced. He said many public officials who had made such appointments believed it was necessary for the Legislature to pass a law providing machinery for hearings and enforcement of the antinepotism amendment, before the amendment would become effective.

Different Rulings on Amendment.
Sharrel ruled the amendment was self-enforcing in November, 1924. His predecessor, North T. Gentry, had ruled it was not self-enforcing and that a legislative act was necessary before the amendment was operative.

Under the provisions of the amendment and the holding by the Court that it was self-enforcing, a master suit could be instituted against any officials who violated the amendment before the test case was decided, it was said, if prosecuting officers wished to press such cases. Such outer proceedings may be brought by the Attorney-General, Prosecuting Attorneys of the counties, or the Circuit Attorney in St. Louis.

The decision, as has been told, was in a test case instituted by Prosecuting Attorney Joel B. Norman, of St. Louis County, which resulted in the Supreme Court declaring forfeited the office of Circuit Clerk D. E. Gandy and County Clerk James A. Hall of St. Louis County, for appointing relatives as their deputies.

The World Renowned Dunrobin Worsteds

Presented by Bond, for the first time
anywhere, at this amazingly low figure

\$35

with two trousers

These are the rich fabrics that grace the displays along the upper reaches of Fifth Avenue. They are featured by these high-priced men's shops because of their distinguished pattern-designs and rare color blends; and because they take a sharp crease, and hold it!

Bond has developed these aristocrats of the Dunrobin looms in London-Designed fashions—with those refinements of tailor work you would naturally expect in suits of such obvious character and good taste. Sabre Gray, Grenade Blue and Saddle Brown are the new shades, featured by Dunrobin for Spring wear.

Never before, in our 16 years of selling Fine Clothes, have we better proven the tremendous effectiveness of our great 26-store volume. Without it, Dunrobin's at \$35 would be impossible.

U. S. Preacher Dies in Spain.
By the Associated Press.
BARCELONA, Spain, April 15.—Dr. Joseph D. Burrell, New York head of extension work for the Presbyterian Church, died here Sunday night after he had collapsed in the Paseo de Gracia. Medical authorities will perform an autopsy. Dr. Burrell, accompanied by his wife, had been touring Spain.

Communists Sentenced to Jail.
By the Associated Press.
LOS ANGELES, Cal., April 15.—Eleven alleged Communists were sentenced to six months in jail and fined \$500 each here yesterday. They were convicted last week of participating in street rioting last March 6. Two others were sentenced to two months each and 15 others to one month each. All announced they would appeal.

SAYS ROBBERS USED HIS CAR, RETURNED IT

Contractor Accused of Securities Theft Surrenders for Extradition to Chester, Ill.

Bernard T. Trimble, 45 years old, 4532 Newberry terrace, a decorating contractor formerly active in ward politics as a supporter of the Miller administration, surrendered in Court of Criminal Correction today to Sheriff Palmer of Chester, Ill., who will take him to Chester to stand trial for the \$49,000 securities robbery of Joseph Siegfried, 78-year-old money lender at Evansville, Ill., March 12.

Trimble was arrested March 23 when a witness reported the two robbers used an automobile bearing a Missouri license number, which was traced to Trimble. Trimble resisted extradition, but Gov. Caulfield issued extradition papers.

"I'm innocent and a victim of circumstances," Trimble told reporters today.

"I have no knowledge that my car was used in the robbery, but it may have been taken without my knowledge."

"It's possible somebody stole my car and drove it to Evansville and back, a distance of about 80 miles."

Two men entered the Siegfried home early Saturday morning and Siegfried and a son and a daughter with wire, and ransacked the house. Two neighbors, who called during the robbery, likewise were bound. When the wife of Siegfried's son entered the house, she was not tied because she was nursing a child. She managed to jot down the license number of the robbers' automobile on a slip of paper, which she hid in her shoe. Becoming frightened, she burnt the paper, but memorized the license number, which she turned over to the authorities.

AN ENTIRELY NEW KIND of MATTRESS

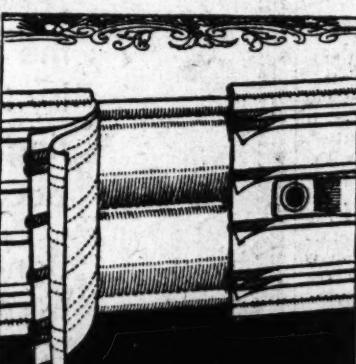

Contractor Accused of Securities Theft Surrenders for Extradition to Chester, Ill.

4 Exclusive Features

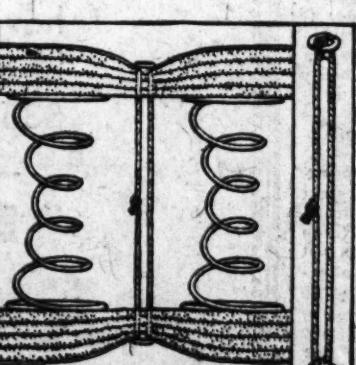

1 "Weight Accommodation." The free action of Slumberon's springs can never be impaired by meshing or tangling—for they are held permanently apart by a special assembly of springs in units of four with special patented Rome Hinge Ties joining unit to unit. See here the luxurious thickness of the soft felt upholstery.

2 Special helical springs join the spring units all around both upper and lower edges of the mattress, holding the latter always taut and straight.

3 Improved appearance and greater strength of the side walls, as well as support, that keeps the rolled edge always trimly straight, is given by the best cotton padding on the outer side wall. Further support is given by the heavy padding of the inner side wall and by an extra center wall of firm duck fabric stitched to the cords. No sagging or breaking down; no spreading or stretching.

4 Special Eyeset Tufting, an exclusive Slumberon feature, gives improved construction, appearance, tension. The tufting cords are machine-cut and tied, assuring exact length and hence a level mattress surface. Note how the cords are tied *inside*, thus eliminating the cotton tuft with its hard little rope knot.

MOVE TO COLLECT \$8,000,000 DUE POLICY HOLDERS

State Insurance Department to Seek to Recover Excess Premiums From Nov. 15, 1922 to Feb. 1, 1928.

The State Insurance Department will move to collect from fire insurance companies the refund of excess premiums for five years, two and one-half months, estimated by Insurance Superintendent Thompson at \$8,000,000, adjudged by the United States Supreme Court to be due to Missouri policy holders, in its decision yesterday. The court upheld the State's 10 per cent rate reduction order of Nov. 15, 1922.

The refund period is from the 1922 date to Feb. 1, 1928. The refund due since the latter date has been made to the policy holders.

Supt. Thompson announced in St. Louis, after receiving word of the decision that he would consult Gov. Caulfield, who has taken an active part in the controversy with the insurance companies, and Attorney-General Shartel, before determining the course of procedure as to collecting and disbursing the refunds.

Charles R. Street of Chicago, chairman of the Subscribers Actuarial Committee, representing Missouri insurance companies, said today that the attorneys for the companies had not yet seen the Supreme Court decision and meanwhile were not prepared to say just what effect it will have. He added: "We have made our fight and if we are licked we will pay as soon as possible whatever we owe."

Part of Money Due Repaid.

The refund lately made was sent by the insurance companies direct to the policy holders. The amount to be paid was estimated at \$3,500,000, but the insurance department has not learned just how much has actually been paid. In some cases the insurance companies have had difficulty in finding the policy holders.

An alternative method would be for the insurance companies to make the refund in a lump sum to the insurance department, which would have the task of distribution among policy holders.

The fact which developed in the course of the litigation, that some of the insurance companies destroyed their records prior to 1927, may obstruct the collection of the refunds for policy holders who have not preserved their receipts for premiums paid before that time.

The companies put the 10 per cent reduction into force, after Gov. Caulfield, a year ago, rejected a compromise proposal made by the companies, which if accepted, would have required the companies to refund about \$5,000,000 of the excess premiums which had been collected, and would have allowed them to keep the balance.

New Increase Held Up.

Aquiescence in the rate reduction, even under protest, did not continue long, for last Dec. 30 the stock of fire insurance companies filed a new rate schedule showing an increase of 15-23 per cent in rates over the present rates. This schedule, if approved, would mean an increase of approximately \$3,500,000 in insurance premiums annually for the policy holders of the State.

Superintendent Thompson suspended the schedule, which the companies proposed to put into effect Feb. 1, for investigation as to its reasonableness. His investigation is still under way and is likely to require six months more. Commissioners of the department now are inspecting the books of several of the companies in Chicago, checking the claims of the companies that they are suffering losses on Missouri business.

During the years of litigation over the 10 per cent reduction order, the excess premiums collected by the companies, by charging the old rates, were estimated to average approximately \$2,000,000 a year.

Opinion of U. S. Supreme Court in Rate Case.

By the Associated Press.

WASHINGTON, April 15.—The United States Supreme Court, in its ruling upholding the 10 per cent reduction in fire and wind insurance rates in Missouri, threw out the test case of the National Fire Insurance Co. of Hartford, Conn. Justice Butler wrote the court's opinion.

"Plaintiff lays much emphasis upon the fact that it will suffer irreparable loss if compelled to apply the lower rates during the litigation and the order is finally held unlawful," said the court, "whereas, if the temporary injunction is granted, policy holders may be protected by an appropriate provision in the decree."

"But, in respect of plaintiff's right to have a temporary injunction, its position is not as good as it would have been if this suit had been brought when the rate order was passed, as against the joint attack the reduction has been maintained by the Court of last resort."

"Plaintiff has not repaid the policy holders. It now assails the statute as well as the order and seeks again to prevent the taking effect of the prescribed rates. The retention of the higher premiums that it obtained by means of the stipulation and the denial of its

promise to refund are facts properly to be considered.

"Plaintiff contends that, as the companies failed to submit, and the superintendent until Feb. 1, 1928, did not designate the cities to which the reduction should be applied, the lower rates did not affect until that time. But by the stipulation the parties agreed that such order should apply to all classes alike. That was a sufficient designation in advance."

I. C. C. DECISION IS UPHELD

Supreme Court Rejects Attempt to Ban Joint Use of Station.

By the Associated Press.

WASHINGTON, April 15.—The effort of the Pittsburg & West Virginia Railway to exclude the Interstate Commerce Commission permitting the Wheeling & Lake Erie to use the facilities of the Union Station on the Public Square at Cleveland, O., and sell its Ontario street station collapsed today in the Supreme Court.

Justices Van Devanter, McReynolds and Brandeis were particularly insistent that the Pittsburg & West Virginia had no right to attack by injunction the Commission's order and should have resorted to other means of relief. Attorney Hoppe refused to yield to their suggestions and argued at length that the question at issue extended to the rights of the minority stockholders. After he had completed his argument, Chief Justice Hughes announced that the court did not wish to hear further argument. This indicates an early order, probably next Monday, dismissing the appeal.

The refund period is from the 1922 date to Feb. 1, 1928. The refund due since the latter date has been made to the policy holders.

Supt. Thompson announced in St. Louis, after receiving word of the decision that he would consult Gov. Caulfield, who has taken an active part in the controversy with the insurance companies, and Attorney-General Shartel, before determining the course of procedure as to collecting and disbursing the refunds.

Charles R. Street of Chicago, chairman of the Subscribers Actuarial Committee, representing Missouri insurance companies, said today that the attorneys for the companies had not yet seen the Supreme Court decision and meanwhile were not prepared to say just what effect it will have. He added: "We have made our fight and if we are licked we will pay as soon as possible whatever we owe."

HEARING ON COUZENS MEASURE TO DELAY RAIL MERGERS

Author of Resolution, Brookhart and Dill Appear Before Senate Committee.

WASHINGTON, April 15.—Efforts to regulate holding companies as well as railroads by legislation were promised today by

Senators at an Interstate Commerce Committee hearing on the Couzens resolution to halt all railroad consolidation legislation until Congress makes further provision to regulate it.

Wilber Laro, representing short-line railroads, had said the public had accepted proposed railroad consolidations. "I'd like to know where you get your information."

commented Senator Couzens (Rep.), Michigan. Laro said he referred to the transportation act of 1920. Senator Brookhart said he had no objection to repeal of the act. Senator Dill said conditions have changed since the act was passed by reason of holding companies and mergers who have fought control.

DETROIT

Gullic, Kre

UHLE DRIVEN
BOX IN SE

GRAY IN

By James M. G

DETROIT, April 15.—The Browns had

afternoon in the opening game of the Am

The score was 6 to 3.

The crowd was slow to gather.

All reserved seats were sold and the holders of those coupons waited until the last moment to sit.

Both teams were heavy wind-breakers that "warmed up" hit-

and figuratively. Detroit of-

ficiais had expected a crowd of 40,-

000 at the opener, but the cold kept

the attendance down to about 25,-

000. Dineen, Nallin and Gisell

were the umpires.

The game:

FIRST INNING—BROWNS—Blue singled to left on the first ball pitched. O'Rourke struck out. Manush popped to Gehring. Kress hit into the temporary seats in left field, sending Blue to third. Schutte walked and the bases were filled. Melillo popped to Rogell.

DETROIT—Johnson beat out a bunter over Gray's head, just shading Melillo on his throw to first. Funk singled to right, sending Johnson to third. Gehring singled to left, scoring Johnson. Funk stopping at second. Alexander struck out. Rice walked, filling the bases. McManus forced Rice, Kress to Melillo. Funk scoring and Gehring going to third. Rogell struck out. **TWO RUNS.**

SECOND—BROWNS—Gullic walked. Marion singled over second and Gullic struck out at second. Gray was called out on strikes. Hale tossed out Blue. Rogell threw out O'Rourke.

DETROIT—Hayworth singled past third. Hale hit on top of the left field fence and the ball bounced into the street for a home run and he scored behind Hayworth. Johnson popped to Melillo. Funk flied to Gullic. Gehring flied to Manush in short left. **TWO RUNS.**

THIRD—BROWNS—Manush sent a line double into the crowd in right field. Kress popped to Rogell. Manush went to third after Johnson caught Schutte's long sacrifice fly. Melillo lined to Funk.

DETROIT—Alexander walked. Rice flied to Gullic. McManus lined to Gullic, whose fast, accurate throw to Blue doubled Alexander off first.

FOURTH—Browns—Gullic popped to Gehring. Marion walked. Gehring threw out Gray. Blue singled through the box, but Gehring made a great stop behind the bag and his throw to McManus caught Marion, who had overrun third, off the bag.

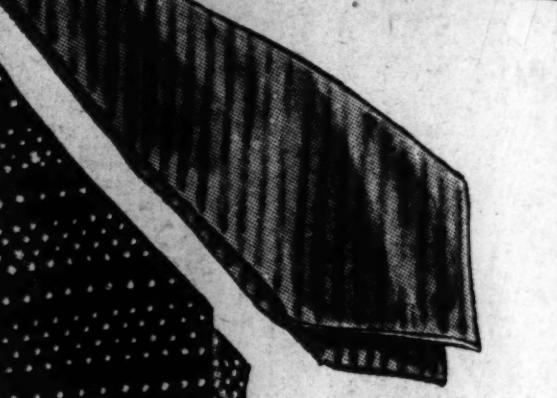

DETROIT—Rogell popped to Kress. Hayworth walked. Marion was out stealing. Manion to Hale. Hale struck out.

FIFTH—BROWNS—Rogell made a fine running catch of O'Rourke's short fly. Manush flied to Rice. Kress walked. Schutte singled to left, Kress stopping at second. Rogell drew out Melillo.

DETROIT—Gray threw out Marion. Funk singled to center. Gehring singled to center. Funk stopping at second. Alexander was called out on strikes. Rice doubled to left, sending Gehring to third. Manush grounded to Albin. **ONE RUN.**

SIXTH—BROWNS—Gullic hit far over the left-field fence for a home run, and the first St. Louis run. Marion walked. Badro bat-batted for Gray and flied to Blue. Blue struck out. O'Rourke doubled to left, sending Marion to third. Manush grounded to Albin. **ONE RUN.**

SEVENTH—DETROIT—Marion went to pitch for St. Louis. Rogell walked. Hayworth popped to Marion in front of the plate. Hale singled to right, sending Rogell to third. Johnson was

CLARKE MORSE NAMED PROFESSIONAL AT CRYSTAL LAKE GOLF CLUB

TWO PURSE

FORMER FOREST PARK STAR HAS TWICE CAPTURED MISSOURI OPEN

By W. J. McGoogan.

Clarke Morse, Missouri open golf champion, an honor which he has held for the past two years, has been engaged by the Crystal Lake Country Club, Clayton and Bopp roads, as golf professional for a year. Clarke's brother, Coleman, also an excellent player will assist Clarke in his new duties.

For the present at least, Clarke will retain his connection with the Forest Park Golf Club and will continue to give lessons there, but will represent Crystal Lake in tournaments. Clarke, who has come to Minneapolis for the national open in June, provided he qualifies in the sectional test at North Hills here, and will enter the \$10,000 St. Louis open event, in addition to the Missouri open and other tournaments.

Clarke is one of the best golf players developed in St. Louis in recent years. He is not yet 21 years of age and when he was only 16 and weighed but 84 pounds was considered to be a natural player and a coming star.

He was the center of a controversy over his amateur status a few years ago when he was barred from playing in the district junior tournament because he was employed in the golf shop at Forest Park. After some wrangling, Clarke settled the question by becoming a professional and announcing his amateur status.

In 1927 Clarke was medalist in the National Public Parks tournament which was held in Cleveland and in the same season won the Forest Park championship. He carried Eddie Held, an amateur of national standing, to the seventeenth green before going down to defeat in the St. Louis district tournament.

In 1928 when he reached the semifinal round of the District Junior tournament, Clarke stated that he had never taken a golf lesson but had just picked up his knowledge of the game. He started out as a caddy and carried clubs for four years.

Clarke, who underwent an operation and did not return to his best playing form until late in the year but he managed to retain his Missouri Open title.

Coleman Morse is also a fine player. In the St. Louis Open last season he beat the professionals over the \$8-hole grid at Bellview Country Club although he finished far behind Jim Manion, who won the far.

The Crystal Lake Club was formed last year. It has an attractive 18-hole course with splendid greens. The fairways, as is always the case with new clubs, are still little rough and golfers are permitted to tee up.

TWIN BASEBALL PITCHERS ON HIGH SCHOOL TEAM

KINGS MOUNTAIN, N. C., April 15.—Kings Mountain high school's prize brother act has the boys on the opposing teams puzzled.

When one pitcher runs into mystery a replica strides to the mound—only he pitches from the wrong side.

Gordon William Hughes is the right-handed ace of the team and his twin, William Gordon, is the left-handed star. They look so much alike that opposing batters couldn't tell them apart if they hurried from the same side. The boys were named for their father.

TULSA HIGH SWEEPS ARKANSAS TRACK AND TENNIS MEET HONORS

FAYETTEVILLE, Ark., April 15.—Track teams from visiting states took most of the honors at the annual high school invitation track and field meet at University of Arkansas Saturday.

Tulsa High School took first honors, scoring a total of 58 points, while Russellville gained second place honors with 26 1/2 points.

Forster, Tulsa sprinter, won the individual honors of the day.

Springfield, Mo., and Russellville and Stuttgart High Schools finished high in the meet.

The events were staged on a fast track; seven records were broken, and one tied.

Jack Sharkey Is Anxious to Go to England to Oppose Scott After Schmeling Bout

By Ed Van Every

Of the New York World Staff.

NEW YORK, April 15.—"After I knock out Max Schmeling, June 12, I am going over to England and karo Phil Scott. I hope Jimmy Johnston can get the Prince of Wales to referee the Scott bout." It was Jack Sharkey broadcasting and by way of long-distance telephone.

"I know if you print some of this stuff," continued Jack, "that some person will be saying that the 'Big I' man from Boston is doing his stuff again, but I don't mean it that way. I believe it is a sure thing that there will be a knockout in my coming scrap with Schmeling, and I don't think I am the one who will take it on the chin. But we will know about that on the night of June 12."

"But what is the idea of going over to England to beat the notorious Phillip in his own den?" I wanted to know. "Is this part of your plan for revenge against Jimmy Johnston?"

"No, this revenge stuff is out," answered Jack. "I've decided that being mad at people doesn't get you anything or to you any good. I've been pretty tired at Jimmy, but what's the sense of it after all? To give Jimmy his due, he is a smart little guy, and he is a wunder at working up the old ballyhoo, I think how he would turn

Bull Montana and Kilonis Quit Ring, Fight in Aisles

By the Associated Press.

DALLAS, Tex., April 15.—Bull Montana, whose face has added to his villainy, according to picture characteristics, was disqualified here last night in a wrestling bout with John Kilonis, Boston grappler, but not before he covered himself with both glory and gore.

The bout, billed for an hour, the best two out of three falls, lasted 28 minutes, the principals sealing the spot light from the expected headliners.

Liberally sprinkled with rights, lefts and uppercuts, the bout went from the ring to the ropes, from the ropes to the floor and thence up and down the aisle until the men were forced apart.

Before he was disqualified Bull was twice warned for strangling. When the wrestlers' legs were disengaged the former movie villain was bleeding profusely from a mouth cut, and his sturdy Greek opponent was considerably the worse for wear and gory.

In the headlining bout, Jack Reynolds of Cincinnati took two out of three falls from Bertie, the 100-pounder, despite a weightless title claim. Hughie Nichols, Mexia, Tex., who claims the light heavyweight title, went to a draw with Bobby Myers, Oswego, Ore., contender.

TULSA HIGH SWEEPS ARKANSAS TRACK AND TENNIS MEET HONORS

FAYETTEVILLE, Ark., April 15.—Track teams from visiting states took most of the honors at the annual high school invitation track and field meet at University of Arkansas Saturday.

The above table the names of the clubs are given in the order of their finish, as shown by a majority vote for the position assigned them. The vote for each club in other positions is also shown.

The vote for the Cardinals to win was not complimentary, as the author of it explained. He argued that the Cardinals had a great team, the sole doubt concerning the pitchers. These he expected to come through—a view apparently not shared by any other of the eight contributors.

Looks Easy, but—

Misfortunes Ruined Pirates.

BU for Pittsburg's disasters during the spring season and the departure of Burleigh Grimes, the club's business might not have such promise of another big advertising season. But just at this time it seems that the Cub will have to suffer a major misfortune, to lose.

At least—so says the "dope."

No "Sure Thing" in Baseball.

HISTORY says a lot of things, such as—

"There is no such thing as an odds-on favorite in a flag race." "They picked to finish last have finished first."

"Blanket liability insurance is no protection against accident."

"A succession of accidents can make a second rater out of a world champion."

Cubs, Mackie Are "Naturals."

THESE two clubs are "naturals" for the world series next

WEST TO BOX DURSO ON AMATEUR CARD AT OVERLAND CLUB

George West, lambasting South Broadway A. C. fighter, and Dan Moore, Olympic A. C. featherweight, who formerly held the Western A. A. U. title, have signed articles to trade blows in one of the five special matches on the Overland Athletic Club amateur boxing program which will take place Wednesday night, April 22, at the Knights of Columbus Hall, 2400 Woodson road, St. Louis County.

Matchmaker George Wilman has announced.

Durso, in his last match, decisively defeated Joe Boker of the South Broadway A. C. team, while West won over Tim McDermott in his last appearance. Although both lads are rated highly, they have never met before in the squared circle.

Matchmaker Wilman also has Farrell Moore of the Tower A. C., signed to compete in one of the special numbers. Moore holds the Mississippi Valley Athletic Association welterweight crown and is a fine active fighter. Bill Winnem, of the South Broadway ring team is the boxer. Wilman is trying to match with Moore. They

GLENN WRIGHT IS KEY MAN OF ROBIN DEFENSE

By the Associated Press.

NEW YORK, April 15.—On the shoulders of shy, capable, likable Glenn Wright rest the hopes of all Brooklyn for a baseball miracle.

Those powerful Dodgers, not particularly smart or resourceful, but big, rangy clowns, feel that all they ever have needed to boast the National League was a smart field leader who could set them a hitting and fielding pace and keep it through the long grind of the 154-game season. Jolly Wilbert Robinson, the round robin of the dugouts, could master mind with anyone from the manager's seat, but unfortunately for the Dodgers, he had to leave them alone on the playing field.

Then along came Wright, the smiling soft-spoken Missourian from the Pirates, a great shortstop, and Brooklyn at last had its field leader. But along with him came disease in the form of a dead throwing arm. Brooklyn lost its enthusiasm and went nowhere.

Now Wright is back with a

household on his shoulder and is thin, red line down one thigh

where surgeons borrowed muscle fiber to tie the bones of his shoulder together.

Manager Mack announced yesterday that he had found it impossible to come to terms with the great outfielder. At the same time Simmons announced that if Mack did not meet his terms he would pack up and go to his home in Milwaukee.

Simmons came on the field at

Shibe Park shortly after noon to

day and conferred with Mack for about 10 minutes. When Simmons and Mack left the offices both were smiling and the A's manager announced that Al had signed a 1930

contract.

Ruth Expects to Hit at Least 50 Homers This Year

By the Associated Press.

NEW YORK, April 15.

If Babe Ruth hits less than 50 home runs this season he will be tempted not to count them. Just before he left for Philadelphia for the opening game against the Athletics, the Yankee slugger said his minimum goal was an even 50 round trip clouts. "Maybe more if they pitch to me," he added.

ILLINOIS HIGH SCHOOL

ATHLETES COMPETE IN PRELIMINARIES, MAY 10

Special to the Post-Dispatch.

HARRISBURG, Ill., April 15.—

High school athletes from 14 countries in the extreme southern section of Illinois will compete at Taylor Field here Saturday, May 10, in the State's thirteenth annual high school track and field meet, finals

in which will be held at Cham-

page at the University of Illinois

the following Saturday.

Then along came Wright, the smiling soft-spoken Missourian from the Pirates, a great shortstop, and Brooklyn at last had its field leader. But along with him came disease in the form of a dead throwing arm. Brooklyn lost its enthusiasm and went nowhere.

10-MINUTE TALK
WITH MACK, THEN
SIMMONS SIGNS

By the Associated Press.

PHILADELPHIA, April 15.—Al Simmons, star outfielder of the Philadelphia Athletics, has come to terms with Manager Connie Mack, and appeared in the game with the New York Yankees this afternoon. The Milwaukee mauler, who was declared a hold-out yesterday by Manager Mack, appeared at Shibe Park shortly after noon today and conferred with Mack for about 10 minutes. When Simmons and Mack left the office both were smiling and the A's manager announced that Al had signed a 1930 contract.

Manager Mack announced yesterday that he had found it impossible to come to terms with the great outfielder. At the same time Simmons announced that if Mack did not meet his terms he would pack up and go to his home in Milwaukee.

Simmons came on the field at Shibe Park in uniform at 1:30 and was given a rousing reception by the spectators already in the stands watching the batting and fielding practice.

KANSAS RELAYS TO
DRAW ALMOST 2000
ENTRIES APRIL 18-19

By the Associated Press.

LAWRENCE, Kan., April 15.—More than 2000 university, college and high school athletes from nearly 200 institutions in 15 states, are entered in the eighth annual University of Kansas relays here April 18 and 19.

In the Kansas relays program proper on Saturday, April 18, there are 25 major universities, 23 college class institutions and 18 out-of-state high schools.

States represented are Colorado, Illinois, Ohio, Indiana, Iowa, Wisconsin, Minnesota, Michigan, Nebraska, Missouri, Kansas, Kentucky, Oklahoma, Texas and South Dakota.

Seven of the Western conference schools are entered, only Ohio State, Chicago and Purdue not sending competitors. There are no teams from either the Atlantic or Pacific coasts.

The Colorado Aggies and the University of Colorado will represent the Rocky Mountain region. The Southwest is well represented. All Big Six conference schools and four of the five Missouri Valley conference members are entered.

Among the outstanding athletes who will strive for new records will be Cy Leland, sprinter from Texas Christian University; Eddie Toland, Negro dash man from Michigan, and Tom Warne, Northwestern pole vaulter and joint holder of the Kansas relays record in the event.

The first five events of the decathlon will be held Friday afternoon. The relays will be run Saturday afternoon.

Mat Tourney Opens.

Special to the Post-Dispatch.
CHICAGO, April 15.—The amateur speed skating meet, sponsored by the Central A. A. U. will open here tonight with more than 300 university, college, high school and club stars entered. The meet will last for three days.

ELY ROTHSCHILDS

Malone was hurt in a fall, sprained his knee and was unable to compete. The Central A. A. U. will open here tonight with more than 300 university, college, high school and club stars entered. The meet will last for three days.

SANDE, BACK IN SADDLE, HOPES TO QUIT WITH 1000 WINNERS

Michigan Boy Unplaced but Twice in Last 14 Starts

MICHIGAN BOY (On Watch) 1st 24-3d Ump. Won. Owner—J. L. Pontius. Trainer—J. Butler. Status—Won Louisville Derby, at Jefferson Park. Second in Derby Trial at Fair Grounds.

By the Associated Press
HAVERDGE, Md., April 15.—Earle Sande, for a decade one of the greatest of American jockeys, has begun a comeback that he hopes will again put him at or near the top of the list once more.

Sande, who retired as a jockey to become an owner-trainer for the Louisiana Derby, and they hit the bull's eye. Now, after a rather sensational career at Fair Grounds and Jefferson Park, the gelding is being brought along carefully at Churchill Downs. Whether he can retain his speed and form after having been permitted to rest up after winning the Louisiana Derby is a question.

Sande has hopes of realizing his greatest ambition—the riding of 1,000 winners. Over a riding career of 11 years, Sande has ridden 942 winners out of a total of 2,552 mounts accepted. All told, Sande's charges earned \$2,642,225 in prize money.

400 THOROUGHBREDS QUARTERED AT AURORA

CHICAGO, April 15.—More than 400 thoroughbreds, including about 300 which did not run in winter meetings, are quartered at the Aurora track, where Chicago's racing season will open May 1. Hal Price Headley has the largest string, 25, working out for the 21-day meeting and its \$130,000 in purses.

Millions in Special Taxes

The buyers of insurance in the United States indirectly but actually contribute a vast sum—approximately \$90,000,000 annually—through taxes additional to the regular taxes paid by insurance companies in common with other lines of industry. This money is a burden upon the premium of the policyholder, notwithstanding it is collected from the company.

The original purpose of special taxes upon insurance was to maintain state supervision of the business, but such supervision uses but four cents of each dollar, and the balance—about \$77,000,000—goes into the general funds of the states.

These special taxes of the state and the taxes which insurance companies pay in common with all other business concerns, and owners of property, as well as their substantial taxes to the Federal Government, are factors in the cost of fire insurance.

The Chamber of Commerce of the United States has adopted the following resolution:

.... Special State Taxes now levied on Policyholders through insurance companies should not be considered as a source of general revenue, but should be reduced to the total in each state which will adequately support such state's departmental supervision

The Stock Fire Insurance companies, which transact by far the greater portion of the fire insurance business of the country, want you to realize this condition and its effect upon the cost of your fire insurance.

ROCKNE EXPECTS TO BE ABLE TO RESUME WORK WITHIN SHORT TIME

ROCHESTER, Minn., April 15.—Knute Rockne, a patient at the Mayo Clinic here, said yesterday that he will be physically able to resume his position as coach of the Notre Dame football team soon.

Rockne and his ailing leg has shown marked improvement. He has undergone a series of tests and will take a course of treatment and further examinations designed to locate and remove the causes of the trouble.

James Sones Keye.

WHEELING, W. Va., April 15.—Earle Sande, for a decade one of the greatest of American jockeys, has begun a comeback that he hopes will again put him at or near the top of the list once more.

Sande, who retired as a jockey to become an owner-trainer for the Louisiana Derby, and they hit the bull's eye. Now, after a rather sensational career at Fair Grounds and Jefferson Park, the gelding is being brought along carefully at Churchill Downs. Whether he can retain his speed and form after having been permitted to rest up after winning the Louisiana Derby is a question.

In his last 14 starts, Michigan Boy has won seven times and fin-

ished second twice. He was fifth and fourth on the two other occasions.

He has gone equally well at five and one-half furlongs or at a mile and one eighth.

He has won on muddy tracks, heavy tracks, good tracks and fast tracks.

He has spread his victories over five different courses: Churchill Downs, Latonia, Lincoln Fields, Fair Grounds and Jefferson Park. His record includes 22 races, eight victories, five seconds and two thirds.

The only blot on his record at the winter tracks was his defeat by High Foot in the Derby Trial Handicap at Fair Grounds on March 1. He was conceding six pounds to J. E. Partridge's colt and the difference in weights was too great. It is well to remember that they will each tote 126 in the Derby.

High Foot got away well and grabbed a long lead in the first half mile. Michigan Boy had no chance to overcome this advantage, and since he had the third horse, Lightning Jones, well beaten. Jockey Shetton did not force his mount to a vain effort and a useless expenditure of energy.

It is on the strength of this race largely that High Foot has been established the future book favorite. Some believe it was not a truly run race from Michigan Boy's standpoint, and he just about proved that when he came back to win his next two starts, one at a mile and 70 yards and the other, the Louisiana Derby, at a mile and a furlong.

T. C. U. SPRINT STAR WILL MEET BRACEY FOR THE FIFTH TIME

By the Associated Press
DES MOINES, Ia., April 15.—Clyde Leland, the Texas Christian University member, was the fourth consecutive defeatist Claude Bracey, the "Dixie Flyer" of Rice Institute, will match strides with Bracey again at the Drake relays, April 25 and 26.

Definite assurance that Leland will appear was received today by Odis Solem, Drake athletic director, who said he also had been told that Bracey would come here.

Tulane University, undefeated during the 1929 football campaign, will send a quartet of its fastest gridironers to compete in the football men's relay, Solem said.

JACK SCOTT SENT TO TOLEDO BY GIANTS

By the Associated Press
TOLEDO, O., April 15.—Pitcher Jack Scott has been turned over by the New York Giants to the Toledo club of the American Association. President Oscar Smith announced yesterday. This is the third time Scott has been with the Mud Hen. Toledo yesterday released to Fort Wayne on option Pitcher Eddie Marieau, Catcher Adamson and Infielder Butch Conant.

The blend that revolutionized smoking

THE INCOMPARABLE BLEND of Camel Cigarettes is probably the most important discovery in the history of smoking. It made cigarette smoking popular. Camel changed the smoking habits of the nation and has given pleasure to more millions of people than any other cigarette.

This exclusive blend assures in Camel a smoothness, a mildness and a mellow fragrance that cannot be imitated. It preserves all the excellent qualities of the choice tobaccos of which Camels are made and melds them all together into a delightful harmony of smoke pleasure. It sets Camel apart as a cigarette of distinctive character and provides for Camel smokers the very highest form of smoking luxury.

DR. HORACE H. FURNESS JR., SHAKSPEAREAN SCHOLAR, DIES

Son of World Famous Authority Succumbs Suddenly at the Age of 63.

By the Associated Press.

PHILADELPHIA, April 15.—Dr. Horace Howard Furness Jr.,

noted Shakespearean editor and scholar, died suddenly at his home here today. He was 63 years old.

Dr. Furness' father was a world famous authority on Shakespeare. The son took up his work when the father died.

The funeral will be held Thursday afternoon.

SCIENTISTS DIFER ON NATURE OF NEW SOLAR SATELLITE

Astronomers at Lowell Observatory Confident It Is Long-Sought Trans-Neptunian Planet.

By the Associated Press.

FLAGSTAFF, Ariz., April 15.—Denial to the contrary, Dr. V. M. Slipher, director of the Lowell Observatory here, believes that the recently discovered "planet X" is the long-sought trans-Neptunian planet, and is not a comet.

Commenting on articles appearing in current issues of scientific publications, Dr. Slipher said misinterpretation of his announcement of the discovery was evident.

"No announcement was made until Lowell astronomers were sure that it was the trans-Neptunian planet," he said. "And I have at no time, intentionally, at least, intimated that there were any doubts in Lowell Observatory officials' minds, including my own, that the point of light is anything but a trans-Neptunian planet. Any inference to the contrary is a misinterpretation of technical terms."

"Our orbit computations and observations since February show definitely that it is trans-Neptunian and strong evidence of planetary nature. It has no cometary appearances."

"These computations have shown that the planet's orbit is more eccentric and extensive than was at first believed. The orbit is in the form of an ellipse."

"It is impracticable at this time to make any definite estimate as to the distance traveled by the ninth planet in traversing its orbit."

"Our computations, however, have reached the point where we can say that the trans-Neptunian planet is approximately 41.35 astronomical units from the earth. In the layman's language, this is equal to 41 times as far as it is from the earth to the sun."

California Astronomer Thinks Orbit Too Elliptical for Planet.

By the Associated Press.

BERKELEY, Cal., April 15.—Identity of the new astral body discovered by Lowell Observatory astronomers as the long-sought trans-Neptunian planet was challenged today by Director A. O. Leuschner of the University of California's division of astronomy.

Prof. Leuschner said the new sky-wanderer might be a large asteroid, a long-period planetary object, or possibly a comet, adding, however, that its discovery was "of great significance because it extends the limits of the solar system."

"The computations of mass made here," Prof. Leuschner explained, "indicate the object is too small to have caused the deviation in Neptune's orbit which originally led to the suspicion that a trans-Neptunian planet exists."

Prof. Leuschner said the Swarthmore Observatory computations indicated the orbit of the object had an eccentricity of .0909. This means, Prof. Leuschner explained, that the orbit is a flattened ellipse, with one end 20 times as distant from the sun as the other.

The Swarthmore University and the University of California observatories agreed in placing the body at its greatest distance some 40,000,000,000 miles from the sun. Prof. Leuschner pointed out, he said, no other solar system body except comets ever gets that far away.

Celebration in Azerbaijan.

By the Associated Press.

BAKU, Azerbaijan, April 15.—In observance of the approaching tenth anniversary of establishment of Azerbaijan as a Soviet republic, the Government has decided to commute the death sentences of nonpolitical prisoners to 10 years' imprisonment.

One Application of this Double Action Discovery and You Remove Corn

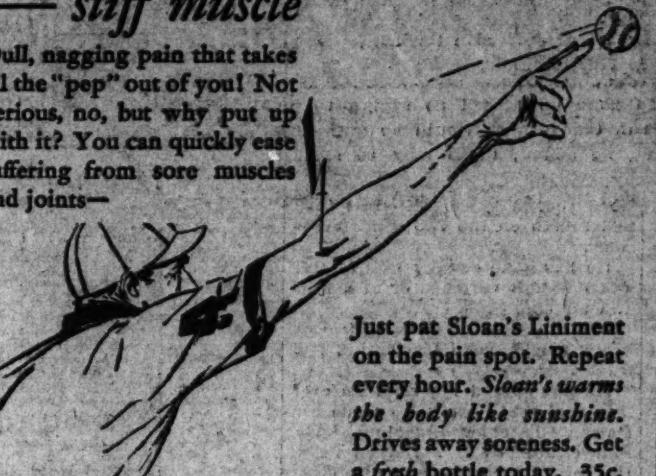

Now a truly startling discovery has been made by a St. Louis chiropractor that not only quickly removes corn and bunion pain, but is designed to prevent regrowth of corn. That's why it is called Double Action. For it is based on an entirely distinct principle. There are two remedies—No. 1 and No. 2. You simply touch the corn or bunion with No. 1 and the pain ends. Then the corn can be removed in a few minutes. Next apply No. 2 to keep the corn bed soft, so the corn will not come back. Or, if you prefer, it merely reduces pain for a few hours. Dr. W. F. Fitter, a new scientific Double Action, sold by all druggists on guarantee of satisfaction or money back.

Dr. WOOFER'S Corn and Bunion Remedy

To ease that sore joint

—stiff muscle

Dull, nagging pain that takes all the "pep" out of you! Not serious, no, but why put up with it? You can quickly ease suffering from sore muscles and joints—

Just pat Sloan's Liniment on the pain spot. Repeat every hour. Sloan's warms the body like sunshine. Drives away soreness. Get a fresh bottle today. 35c.

The Electrical Contractor's Overhead. To the Editor of the Post-Dispatch.

IN THE testimony on the alleged electrical "combinations" as set forth in the newspapers, it appears that 33 1-3 per cent of the cost of material and labor represents profit. If that's a fact, it's a grand holdup. But there is a great possibility that this is not an actual fact. From my 15 years' experience in the subcontracting field it appears that the largest part of that 33 1-3 would represent overhead expense. The rated subcontractor keeping actual records knows that such items as office rent, clerical help, telephone, telephone equipment and their maintenance, interest, liability insurance, telephones, taxes, licenses, salesmen, depreciation of equipment and numerous other overhead expense items figure from 20 to 30 per cent on the cost of material and labor, depending on the volume of business done annually. Profit starts in only where overhead leaves off.

In the case of the general contractor, his fees are based on the total of all subcontract bids. The fees of the subcontractors are usually based on the entire project. It can be seen that if the subcontractor's figures would run into large sums such as the general contractor's figures usually do, the overhead expense would be much smaller in percentage. In other words, a subcontractor has to do approximately a dozen different jobs every time the general contractor does one in order to attain the same volume. The overhead naturally increases accordingly. For the general contractor, a retailer, not honestly sells his goods wholesale without incurring the costs and expense of a retailer. The average person, not being familiar with the construction industry, does not have the opportunity clearly to understand all of these details.

E. F. Darwinism Here and in England. To the Editor of the Post-Dispatch.

E VOLUTION or Darwinism is being charged with undermining religion and increasing crime. Is there any foundation for these charges? Now evolution, which was first given credence in England, is the bane of Darwin and Huxley, who determined religion in that country and caused a crime wave, it might be allowed that it would produce the same results in the United States. But it happens that the ministry has ceased fighting evolution in England and that crime is extremely rare and promptly punished over there. If England has run the gamut of evolution and remained unscathed, why should it be viewed with alarm here? But does not the balloon remain one day of the old moon's questions of a day's creation, the rotation of the earth, the Cenozoic system, the circulation of the blood and germs that menace health, fruits and crops?

Model Boat Sailing. To the Editor of the Post-Dispatch.

I NOTE with interest a report of Park Commissioner Pape that he may prohibit model boat sailing in Forest Park lake entirely on account of traffic jams which it causes. Does this not show how popular this sport is?

What is the matter with St. Louis anyway? The making of model boats is fostered and encouraged by all of our leading cities and would like to have Mr. Pape continue him in this sport and he will find most papers, caterers, and backing this sport by offering prizes, school boards instructing boys in the art of designing and building these models. Only St. Louis is taking a stand of this kind. We have always lacked co-operation with the Park Board, not only in sailing boats, but also in ice skating.

I would like to invite anyone to come to Forest Park on Saturday or Sunday afternoons and see the children sailing their boats.

Come on, Boy Scouts, boat enthusiasts, manual training instructors, let's stop this total disregard for such a clean sport. This has gone far enough and as taxpayers let's demand a lake like they have in other cities entirely for this sport and properly kept in condition by our Park Board.

AN ENTHUSIAST.

Those Popular Foreign Ships. To the Editor of the Post-Dispatch.

THE Mississippi Valley Association like most other groups, has planned its European trip this summer via a British steamer from Montreal.

Just another indication of people's attitude toward prohibition, it is extremely difficult to find an organization on using American liners because of their lack of desired beverages.

The people of this country have never directly voted on prohibition. A vote of the Legislature seldom reflects the opinion of a majority of voters in a state. It is presumed to, but usually does not.

In the same manner that in a so-called free country, the great Republic of the world, the only thing that can be done is a direct vote of the people on prohibition to be had through a poll by a weekly magazine. But perhaps we should be thankful even for this. OBSERVER.

THE INSURANCE SCANDAL.

Refusal by the United States Supreme Court to set aside the 10 per cent reduction in storm and fire insurance rates in Missouri does not necessarily mean that the refund to policy holders is in sight.

What is likely is that policy holders who had the foresight to save their receipts will have to sue for the excess paid after the reduction was ordered, which makes this vexing case even more of a public scandal than it has been through the eighteen-year period in which the insurance companies have challenged the authority of the State. This is the second time they have carried their resistance to the Supreme Court of the United States. The first time the court refused to accept jurisdiction because no constitutional point was involved. Meanwhile, in the words of Gov. Caulfield, the companies have more than defied the law. They have also violated their pledged word not to test the rate reduction on constitutional grounds if the State would let them out of some part of the refund. The decision sustaining the right of the State to regulate fire and storm insurance rates is unanimous. It also sustains all the decisions in the State and Federal courts.

Some of the companies have refunded the excess collected after Feb. 1, 1928. This was the date upon which the State Insurance Department issued an order listing the classifications to which the reduction applied, a provision of law neglected at the time the reduction was ordered. The reduction order dates back to Nov. 15, 1922. Therefore the approximate \$4,000,000 refunded is perhaps not more than one-third of the total excess collected. The Insurance Department has estimated that after the order was issued the companies collected an excess of \$2,000,000 a year. If so, the total was about \$12,000,000, of which some \$8,000,000 remains unpaid. It was brazen enough for the companies to collect so much money over the protest of the State. They should never have been permitted to do so. For them to attempt to keep it now and threaten, as Gov. Caulfield says they did, "disagreeable consequences" if their offer to return part of it was not accepted, went about as far as any industry has gone in making a law of its own.

When he refused to compromise the authority of the State the Governor pointed out that the insurance companies have been collecting this money all these years and have had the use of it. He condemned their practice of destroying premium collection records while the reduction was in litigation, and after he had recommended that they be estopped by law from so doing the companies promised the department to desist. The State should give them a choice between refunding the excess in full or getting out. They have been unable to convince any court that the reduction is inequitable. After eight years of resistance, they find themselves exactly where they were when the reduction order was issued.

Except they have some \$8,000,000 which does not belong to them. If they refund only so much of it as the policy holders can recover by suit they will still make off with most of this great sum. Suing the companies for recovery will be expensive. The average policy holder is unlikely to have saved the receipts, and the sums are in many cases too small to worth the effort. In refusing to accept their offer of compromise, the Governor was aware that they can also invoke the statute of limitations. These are some of the reprisals they threatened in the event their compromise proposal was not accepted. The Governor would not compromise the right of the State to regulate the business, and that right is what prohibition is trying to do, and it cannot be done.

by means which prejudice their usefulness as lawmakers. Certainly the State of Missouri should pay its legislators at least enough to feed and lodge themselves. We suggest another constitutional amendment to this effect be presented to the voters, believing that with further consideration they will be willing to reverse the decision of 1924.

PROHIBITION AND THE PRESS.

The press survey conducted by the New York Herald Tribune upon the subject of prohibition shows a heavy preponderance of circulation on the side of those opposed. Upon the dry side 55 papers in 27 states show a total circulation of 1,545,409. For the opposition, the same number of papers in 24 states have a total circulation of 5,531,263.

Unfortunately, many of the newspapers did not answer the Herald Tribune's query. One of those not answering was the Indianapolis News, albeit the News recently announced that after supporting prohibition for 10 years it had changed its mind about it. Probably a good many of the newspapers are fearful of the consequences to themselves in opposing prohibition, as the Chicago Tribune admits it was before it made the surprising discovery that it had more readers as an opponent of prohibition than it had on the fence. If so, they have before them the courageous examples of 27 of their contemporaries which have faced about on this issue. Some of these, such as the Selma (Ala.) Times-Journal, Jacksonville (Fla.) Journal, Tampa (Fla.) Morning Tribune, Lewiston (Idaho) Morning Tribune, Twin Falls (Idaho) News, Decatur (Ill.) Herald, South Bend (Ind.) News-Times, Cedar Rapids (Ia.) Gazette-Republican, Clinton (Ia.) Herald, Bristol (Va.) Herald-Courier and the Charleston (W. Va.) Gazette, have been in anything but wet territory. In many instances it has not been an easy thing to do.

The metropolitan newspapers are almost solidly against prohibition. Among the notable exceptions are the Los Angeles Times, Minneapolis Journal, Detroit News, Memphis Commercial-Appeal, Houston Post-Dispatch and Springfield (Mass.) Republican. In this class only the Los Angeles Times and the Minneapolis Journal answered the Herald Tribune. Are some of the others possibly thinking it over? That may very well be the case. The Indianapolis News thought it over. It concluded that national prohibition is impracticable and a menace to free government. So will all the great newspapers conclude at last, for the prohibition fight has come down to a test between government by the people and government by law. The press cannot fail in such a test. After all, it is not unconscious of its responsibility. Seldom tried out, its devotion to the great American ideal of free government is at heart sound. We cannot have free government if one great segment of the people is to impose its will upon all the rest. That is what prohibition is trying to do, and it cannot be done.

MR. HOOVER, QUAKER.

Those bellicose elements of the Republican party which scout all peace measures and jeer at international agreements to relieve the groaning world of its armament burden must realize by this time that in Mr. Hoover they caught a Quaker.

Mr. Hoover says he has seen all the war he wants. He told those flaming swords of freedom, the Daughters of the American Revolution, yesterday that as a result of the London conference the United States, Great Britain and Japan will enjoy a reduction of 25 per cent in the naval armaments projected at the Geneva conference three years ago. Despite Mrs. McCormick's whooping victory in the Illinois primary as an opponent of the World Court, Mr. Hoover repeats that he is for it and expects the United States to join.

Great organs of the jingoes like the Chicago Tribune and the New York Herald Tribune will have to cast about for some son of Mars to set the party right again. Mr. Hoover is as unwarlike as any President we ever had.

MITCHELL'S DEFENSE OF JUDGE PARKER.

In defending Judge Parker for his decision in the Red Jacket "yellow-dog" contract case, Attorney-General Mitchell makes the point that it would have been impossible for him to decide otherwise. This was because the Supreme Court, in parallel cases, had already given its opinion on the legal points involved. Says Mr. Mitchell:

The question is not whether the Supreme Court was right or wrong in its conclusion. The question is whether Judge Parker was dealing with points which had been settled by the Supreme Court which he was bound under his oath of office to follow.

In other words, it is the custom of Federal Judges in inferior courts not to depart from Supreme Court rulings in parallel cases. However, when to follow a Supreme Court ruling violates a Judge's view of the law, he may make a reservation to that effect. Such reservation has been made in numerous cases, the Judges declaring from the bench that, though their own opinions differed, they were compelled to reassert the settled doctrine.

But when Judge Parker decided the Red Jacket case, he confined himself entirely to citing Supreme Court precedent as authority and justification for his decision. In the absence of any expression of his personal belief to the contrary, it must be assumed that his convictions on the subject of yellow-dog contracts are identical with those of the Supreme Court.

Thomas Edison says he lost all interest in the "it girl" when she began to talk. There's a lesson not only for the talkie producers but for all women.

NEWS-REEL.

Baseball season opens, and U.S. delegates at London conference book reservations to sail for home; clergy in many countries hold services to protest against closing of religious edifices in Russia and Messina, Ga., is found to have eight dwellings and seven churches; Peter Perfect wins good behavior prize in English school, and Paul Miller arrives in New York penniless as a showaway on a liner; Vienna stylists say the well dressed man will wear stripes this spring, and Missouri prison Warden puts stripes on revolt leaders; price of gasoline goes up 1 cent, and Covington (Okla.) man's oil well begins shooting pure gasoline; Lincoln (Neb.) woman seeks \$10,000 from man who, she says, hugged her so hard he broke several of her ribs; and Tacoma man, thumping self on chest as he boasts to wife of strength, fractures a rib; shoe manufacturers organize campaign to induce public to walk more, and California man perfects light auto to carry him over golf course.

A great many men who are able and willing to render public service in the Legislature are thus financially unable to do so. Those who do attend are subject to temptation to augment their salaries as clerks or secretaries.

The people of this country have never directly voted on prohibition. A vote of the Legislature seldom reflects the opinion of a majority of voters in a state. It is presumed to, but usually does not.

In the same manner that in a so-called free country, the great Republic of the world, the only thing that can be done is a direct vote of the people on prohibition to be had through a poll by a weekly magazine. But perhaps we should be thankful even for this. OBSERVER.

ROBBERS' ROOST.

Clarence Darrow on Farm Relief

Agriculturist has a just grievance, but it cannot be cured by doles; if tiller of soil were unhampered by monopoly and unjust tariffs, he could take care of himself; farmer in every age has been poor, for world's real workers never pile up wealth; rich have always lived in the cities, profiting by efforts and labors of others.

Clarence Darrow in Plain Talk.

F OR the Government to sow dollars

broadcast on the prairies where the farmer sowed his wheat may tempt him for a little time. It will be interesting whether the farmers are picking them off and the Government is not able to realize that the Government sows will not sprout and bring forth like the golden kernels that the farmer once cast upon the earth.

It is very doubtful if they can begin to find all the dollars that they sow. If this seed leaves no other harvest it will produce a crop of vain ambitions, disappointed hopes, bitter jealousies and enmities that many years of real farming cannot plow under.

This is not a new experiment in the world. It was virtually tried in Rome and in France, and it was then the beginning of the end. The once proud citizens of Italy left their farms and rushed to Rome to live on the fat of the land. The banks' edge, and the peasants clad in rags and harboring bitterness came to Paris until they were turned back by the armies of France.

If the Government would give the Dakota farmers the right to buy in the open market of the world where they sell their grain, it is possible that they might paddle their own canoes—or prairie schooners.

They might even look after themselves better than the tariff barons can give them. A present of a sheet-iron granary that will keep out the rats until they sell the grain. A patient is very ill when the pulmonist is brought in to feed him oxygen because he can no longer draw his breath. I have noticed that generally a few days after the pulmonist is delivered at the door, the hearse draws up in its place.

The farmer is ill indeed when he is told that he cannot make his own way and take care of himself without Government doles, in whatever form they doles are handed.

WASHINGTON, April 13.

UNCLE JOE CANNON, after a long

absence in an obscure place in the office building that houses the branch of Congress over which he presided so long, to the most conspicuous spot in the structure.

"Uncle Joe" may now be seen in the lobby of the building against a column in that vast marble inclosure. No one who enters here can help but pause and admire the fine likeness of that bold old "char" of the House in dangerous by.

Albert Jagers made this marble portrait of "Uncle Joe" when members of the House moved into the office building. "Uncle Joe" is interested in having the huge structure started and his seal in pushing it to completion prompted the House to order his bust put there. The bust was unveiled in a little niche at the head of the stairway on the third floor leading to the caucus room. There it has remained since, virtually unnoticed.

E FFORTS to illuminate the staircase

that the bust might be seen to a better advantage, proved in vain. It was finally decided to remove it to the lighted lobby. Removal of "Uncle Joe" from the third floor to the lobby had much the same effect as if a new bust had been unveiled there. Congressmen and visitors who, time and again, had passed the niche on the stairs without recognizing the bust, began to bombard the property custodian's office with queries.

Carved from marble, several shades darker than the whiteness of the lobby, it is mounted on a dark oaken pedestal. "Uncle Joe" presents a striking picture there, with his back to a massive marble column. Only the famous "stogie" is lacking.

His appearance "downstairs" has also caused a revival of "Cannanolia" among those who knew him in the days that he was Speaker. There were probably more stories told by and about "Uncle Joe" while he was in Washington than any other public official. The best of these are being heard again.

T HERE is the one, for example, of the

time "Uncle Joe" was at one of the clubs in Washington, when a group of "friends" in Congress started a discussion on bolshevism. Words of wisdom were falling fast from lips of the novices.

Finally one turned to Cannon, who had taken no part in the conversation, and asked for an expression. Putting on his most serious look, the former Speaker turned to his inquisitor:

"Young man, I'll tell you what I'll do."

Then pausing for effect, he added slowly: "I'll play you a game of dom

Of Making Many Books

JOHN G. NEIHARDT

SHAMBHALA. By Nicholas Roerich. (Frederick A. Stokes Co., N.Y. \$2.50).

NICHOLAS ROERICH, famous Russian artist and philosopher, first came to America 10 years ago at the invitation of the Chicago Art Institute, and his is the honor (apparently unique) of having a shrine built for his work during his lifetime. The Roerich Museum of New York, which contains over 1,000 of his paintings, in addition to executing something like 3,000 paintings, he has traveled extensively in Asia and written a number of books, of which "Asia Himalaya" is perhaps best known in America.

In "Shambhalia" he presents the record of a recent journey through Central Asia and Tibet—less a record of physical than of spiritual adventures. We are told that "Shambhalia" is "the most sacred word of Asia," signifying "the great Advent or New Era" in the sense of a spiritual Renaissance. Curiously enough, perhaps, Roerich, after finding everywhere in his Asiatic wanderings what he believed to be urgent rumors of the universal spiritual outburst, the world planet is momentously threatened.

These two pamphlets by expert economists make curious reading after Mr. Roerich's panegyric on American spirituality noted above.

What has economics to do with spirituality? A great deal more, these authors insist,

and it looks as though we were giving her a fairly stiff workout.

Shams Ball Hard.

But they weren't keeping score very accurately, and the last ball she sent over, ending the session, nearly caved in a brick wall around the West Side Tennis Club grounds,

giving evidence of the world's powerful driving force.

Young Moody is not going to Europe to see his bride defend her championship in France and England. He isn't even coming here.

On the contrary, at the present moment in India a fairly notable demonstration against the Western conception of life is in progress.

Roerich tells us how all over Asia America is regarded as the "cuckoo of all countries," that is to say, the protector. He finds the state of our culture, our artistic achievement and our spiritual aspirations quite overwhelming, and in discussing these he attains a high lyric note. America, he tells us, is, as the Asiatics are said to believe, "the land of Shambhalia."

All this is great news and vastly encouraging, it is not?

Hoover Signs Public Domain Bill.

WASHINGTON, April 15.—President Hoover yesterday signed a bill authorizing the appointment of a commission to study and report on the conservation and administration of the public domain.

CONTEMPORARY ART APPLIED TO THE STORE AND ITS DISPLAY. By Frederick Kiesler. (Brentano's, N.Y. \$1.50).

The author, who is president of the American Union of Decorative

Arts and Craftsman and a well-known designer for the stage, both in Europe and America, shows how modernistic art of the more or less abstract variety may be made of practical value to merchants in attracting customers. The volume contains many illustrations, some being reproductions of abstract art works that ought to catch and hold the jazziest eye by virtue of sheer incomprehensibility. These are discussed evidently with great seriousness. To the person of unmoraled esthetic sensibilities, the volume as a whole is likely to seem an incredible hodgepodge of contrasts. But undoubtedly fetching window displays could be concocted according to the specifications given.

HOW AMERICA LIVES. By Harry W. Laidler.

ONE BILLION WILD HORSES. By Stuart Chase. (Both issued at 10 cents per copy by the League for Industrial Democracy, 112 East 19th St., N.Y.).

These two pamphlets by expert economists make curious reading after Mr. Roerich's panegyric on American spirituality noted above.

Roerich tells us how

Text of President Hoover's Address to D. A. R. Congress

Continued from Page One.

poison of suspicion and ill will generated by constant rivalry in construction.

Stronger in Defense.

We have been able to create a situation where there is neither inferiority nor superiority in the naval strength of the United States. This is consonant with the pact we have solemnly entered by which we have pledged ourselves to use our arms solely for defense.

We are stronger in defense as a result of the conference. It is an accomplishment that I believe will appeal to the moral and spiritual sense of the American people. Through this agreement we have strengthened the forces of peace. It is an accomplishment that has great material advantages to all its participants, but I prefer to have it judged on the far higher grounds of its contribution to the moral and spiritual welfare of our people and the world, for in the long run those are the grounds on which we and the world must depend for progress.

The great road to peace lies in the prevention of war. The construction and maintenance of this road requires just as much interest and devotion as the maintenance of the national passions.

The first principle in prevention of war is to guide our national conduct in justice, consideration and kindness to other nations so as to give no justified cause for ill will or suspicion. War arises from a state of fear, a sense of injustice, and an ill will which culminates in uncontrollable national passions.

There are ever present in the

world the causes of friction. The far-flung exchange of citizens and their property throughout the world gives hourly birth to large and small controversies; beyond this our generation has inherited a multitude of conflicting interests from of old. These controversies are of many different types; they require distinctively different methods and agencies of settlement. The practical program of the work of peace is to develop and create appropriate agencies for regular methodical disposal and solution of these controversies so as to maintain justice and avoid arousing of national emotion.

Incidents Adjusted Daily.

All civilized nations have developed great skill and experience in their Foreign Offices whose will and purpose in this century is to dispose of a multitude of these daily incidents without friction. We have need steadily to expand their machinery and method.

The world has greatly advanced the method of arbitration by means of treaties; it has by such instances as the Bolivia-Paraguay dispute advanced the method of independent inquiry into fact in cooperation with the parties, and by such instances as the Tacna-Arica controversy, have advanced the method of conciliation. The difficulties in the instance of the Chinese-Russian dispute show the clear need of some method of mobilization of public opinion against the violation of the Kellogg pact.

By international conference on specific questions, such as disarmament, we have advanced the method of co-operation in settlement of old standing dangers.

Through precedent and

treaty the world is building every year a larger and larger body of international law and practice. Statesmen over a generation have realized that with the growth of international law and precedents, another method can be contributed to the peaceful settlement of a vast number of incidental controversies of judicial character if the world had an international court to which such cases could be referred for adequate hearing and independent decision based upon law and justice.

Advocates World Court.

Such a court—the World Court—has been established at The Hague with the aid of American jurists. It has been accepted by 96 per cent of the civilized people of the earth. It is established, and no other court is practicable. It has demonstrated the highest integrity and capacity, and the continuance of these qualities is assured. It has already settled a great number of controversies.

It is only one, but an important one of the six or seven methods of securing pacific settlements, and thus a contribution to the prevention of war. Adherence to that court by the United States has been earnestly recommended by every one of our Presidents and every one of our Secretaries of State living since its inception. No one can challenge the patriotism of these 10 men, nor the ripe wisdom which is theirs from having borne the actual burden of responsibility for our foreign relations. They have found no entanglements or limitation of the independence and the maintenance of peace should be backed by potential coercion through pooling of either military or economic strength.

We do not question their right to come to such conclusions as they see fit to follow arising as they do from their terrible experience and their necessities.

But the instinct of the vast

population on this question rests upon the details of special stipulations under which we should join. It is not my purpose to go into these contentions here. I have no doubt they can be solved and that the United States will become a member of the court.

Mankind has within the past decade given more earnest thought to and made more constructive effort and progress toward the elimination of war than in all previous periods of history. In the broader field of our relation to these many methods to prevent war we have during the past few years participated in an inc. easing number of international discussions, consultations and conferences, arbitrations and inquiries—all of which represent progress in organizing the world for peace.

We shall continue to do so where any important purpose is to be accomplished. And in our co-operation to maintain peace there is one broad policy which I wish to emphasize.

Distinctive Role of U. S.

Our role in co-operation is different from that of the nations of Europe. That difference rises not only from our geographical setting, but from the nature of the maximum contribution we can render to peace. The nations of Europe, surrounded as they are by dangers and problems of which we in the western hemisphere have but little appreciation, and beset by inherited fears, hold to the view that aside from the world court the pacific settlement of controversies and the maintenance of peace should be secured by potential coercion through pooling of either military or economic strength.

For the American people, not alone as a matter of material interest to our prosperity and welfare, but because gains to the moral and spiritual forces of the world are made through peace and not through war.

majority of our people is that our contribution is not to be based upon commitments to us to force to maintain peace. This is the main feeling that the threat of force conflicts with the purpose of peaceful efforts and from the limitation it might place upon our independent action where we have only indirect interest. We have come to the belief that our contribution can best be made by our good offices and a helpfulness based upon independence from any combination pledged to the use of force.

I believe it is clear that the United States can most effectively and wisely work for peace without commitments to use coercive force to enforce settlements. Our position was made clear in a statement issued jointly by the Prime Minister of England and myself at the time of his memorable visit of good will to this country. We said:

"The part of each of our governments in the promotion of world peace will be different, as one will never consent to become entangled in European diplomacy and the other is resolved to pursue a policy of active co-operation with its European neighbors. But each of our governments will direct its thoughts and influence toward securing and maintaining the peace of the world."

Within these principles which are in full accord with the traditions we have from our forefathers, we should hold to the view that aside from the world court the pacific settlement of controversies and the maintenance of peace should be backed by potential coercion through pooling of either military or economic strength.

As a Preliminary to the picking, 30 women volunteers yesterday marched through the village of Bhamrad chanting against alcoholics. The marchers approached one liquor shop and implored the customers to drink the blood of the volunteers rather than liquor. One woman in the shop threw away her drink, but the men placidly drained their glasses.

Mahatma Gandhi's private secretary, Mahadev Desai, who was left in charge of Gandhi's seminary, has been arrested in Ahmadabad.

TODAY HIS NETS SWEEP 2000 MILES OF SEA

Today his nets sweep 2000 miles of sea... His cannerys dot the shoreline from Puget Sound to Bristol Bay, Alaska...

From these cold waters E. B. Deming brings in plump, prime salmon—by the thousand—by scores of thousands... They're fresh—you can't buy a fish in the market as fresh as these... They're clean—as clean as if prepared in your own kitchen... They're cooked to perfection... rich, tangy, "the king of food fish"—salmon—at its very best!

Only in Canned Salmon can you get such food value... for so little!

Deming's Salmon brings a wealth of nourishment—more per pound than sirloin steak, or eggs, or chicken... It is an important source of Vitamin D, essential bone-builder. It is rich in iodine, the natural preventive of goiter. And it is low in cost, without waste, ready-prepared.

He revolutionized the canning process... He promoted the cleaning of salmon by machine—quicker, more sanitary... He developed the vacuum pack by which the fish are sealed and fully cooked in their own savory juices—all the flavor and outstanding food value retained...

Deming's Vacuum Packed Salmon

You will find Deming's Salmon at your grocer's—or he will get it for you. Order Deming's Salmon today!

Choose from these varieties:

...There are four leading varieties (*species*) of salmon. Because some are more plentiful than others, prices vary. All are high in food value... excellent in flavor. Deming packs the best of all varieties... Each packed plainly on the can... and each premier in quality. These varieties are:

Deming's Puget Sound Sockeye—Bright red, rich... considered the world's choice salmon.

Deming's Chinook—A larger fish, usually deep pink in color... delicate of texture and full-flavored.

Deming's Alaska Red—Brightly colored... the choice salmon of Northern waters.

Deming's Pink—Sweet in flavor and is practically as nourishing as the others, but more plentiful, and therefore lower in price.

Free... "Fifty Prize-Winning Recipes"

Mr. Deming has gathered together the favorite salmon recipes of women throughout America, and has published the prize-winners in an attractive, helpful booklet. Ask for it! Just mail the coupon.

SUPREME COURT ORDERS CUT IN WATER DIVERSION

Upholding Report of Special Master Hughes, Tribunal Rules Against Great Lakes States' Plea.

By the Associated Press.

WASHINGTON, April 15.—The protracted litigation over the diversion of water from Lake Michigan at Chicago reached its final stage yesterday when the Supreme Court adopted the report of Special Master Charles R. Hughes, proposing a plan for reducing the diversion to not more than 1,500 cubic feet a second by the close of 1933. This diversion is in addition to what the city may pump from the lake for domestic purposes.

All parties to the controversy took exception to the report of the special master, the Great Lakes states making a strenuous effort to prevent any diversion through the Chicago River as soon as sewage disposal plants were erected in the cities. The opinion was rendered by Justice Holmes, and there was no dissent announced.

FINANCES WILL BE NO EXCUSE.

Under the decision, the Sanitary District will be required to establish sewage disposal plants by the close of 1933 and the financial condition of Chicago will be no excuse for failure to carry out the plan, the Supreme Court announcing that if the State Constitution prevents the raising of sufficient funds, the Constitution should be amended because it is the intention of the Court to enforce the terms of the report of the special master. Chicago will be permitted to install, if it can obtain the consent of the Secretary of War, controlling works in the Chicago River to prevent the reversal of the present current of the river by storm waters, which might otherwise happen after the present diversion of 5,000 cubic feet a second is reduced to not more than the 1,800 feet maximum which the Court allowed.

Declaring that the Sanitary District is "doing a wrong to the complainants (Great Lakes states) and that they must stop it," the Court said the Sanitary District and Chicago must find "out a way at their peril."

Justice Holmes said that in approving the special master's report the Court was required "only to consider what is possible if the State of Illinois devotes all its power to dealing with an emergency to the magnitude of which it seems not yet to have fully awakened."

VIEWPOINT OF THE COURT.

The Court pointed out that the special master's report required the diversion to be reduced to 6,500 cubic feet a second on and after July 1, 1930, in addition to what is drawn for domestic purposes; that the controlling works to prevent the reversal of the Chicago River, if permitted by the Secretary of War, could be completed by Dec. 31, 1933; that the West Side treatment plant should be completed by Dec. 31, 1935; and that all the plants and other works should be installed by Dec. 31, 1938. By that time the diversion should be cut down to an annual average of 1,500 cubic feet a second. In addition to domestic pumping for the municipal water supply, the Court said.

The decision suggested that a commission might be appointed to enforce compliance with this program, but added that it would be better to require the Sanitary District to file with the Clerk of the Court at stated periods reports on

MOON MOTOR PLANT IN HANDS OF NEW OFFICERS

Barred by Armed Employees, They Get Possession by Temporary Court Order.

The Moon Motor Co., 4400 North Main street, today is in the possession of the new officers who had to go to court to get in, and the old officers are threatening to go to court to get their successors out.

Elected at a special directors' meeting Saturday, President William J. Muller and his associates recently acquired a majority of the Moon Co.'s stock when the firm, which had 100,000 shares outstanding, sold them an additional 250,000 for \$500,000 cash and assets of New Era Motors Co.

went to the offices yesterday morning, but found them locked, with several old employees acting as guards on the inside and threatening the outsiders with armed resistance.

The new officers promptly went before Circuit Judge Pearce and asked for an injunction against interference. A temporary restraining order was granted.

Mr. Muller and his associates recently acquired a majority of the Moon Co.'s stock when the firm, which had 100,000 shares outstanding, sold them an additional 250,000 for \$500,000 cash and assets of New Era Motors Co.

**YOUTH, HURT WHEN
AUTO UPSET, DIES**

Verdict of Accident is Returned
—Driver Dozed Momentarily, He Testifies.

A Coroner's verdict of accident was returned today in the death of Walter Knapp Jr., 19-year-old laborer, 8224 Reilly avenue, who died yesterday at City Hospital of a fractured skull suffered early Sunday when an automobile in which he was a passenger overturned on Highway No. 61 between Barnhart and Imperial, Mo.

August Schwob, 601 West Teason street, driver of the machine, a small tractor, explained that the accident occurred as he dozed momentarily, caused by a long drive. Kenneth Dalton, 7604 Idaho Avenue, is in City Hospital with a fractured shoulder, but Schwob and another passenger were uninjured.

A small coupe failed to stop last night after striking Virginia, 5-year-old daughter of Mr. and Mrs. Guy Livingston, 3419 Marcus Avenue, as she crossed the street near her home. At Missouri Baptist Hospital she was found to have suffered a fractured right leg.

A possible explanation of the

origin of the accident has been

the fact that today was the eighth

anniversary of the sinking of the

Titanic, which ran into an iceberg.

The rumor gained wide cir-

culation and broadcasting stations

and newspapers were deluged with

telephone inquiries.

admits his French grows worse day by day, while Jacques-Louis Dumesnil, French Minister of Marine, contends it is impossible for him to learn English.

France Said to Plan to Slow Up Naval Building Program. PARIS, April 15.—Information available in authoritative French circles today is that France will slow up her naval building program, despite the fact that she will not participate in the hoped-for comprehensive five-power naval pact.

"I've suffered my last spell of acid stomach," says H. K. White, 2519 Washington Blvd., Chicago. "I found out that by taking Asidine three or four nights a week, I never have that uncertain feeling whether my meals are going to set right, or make me miserable from the excessive acid and gas I used to have so regularly."

Sick, acid stomach, dry sensation in the throat, gas, unpleasant breath and indigestion usually come from too much acid when your stomach does not digest the starchy food you eat. Not more than one person in a hundred has a stomach so perfect it will do it without help. That's why more than 2 million people are now using Asidine regularly to enjoy good appetite and freedom from distress and pain after eating. You can get Asidine at any drug store.

rebuilt some of her cruisers and replace battleships, perhaps utilizing the 70,000 tons of battleships authorized at Washington but never built.

It was added by the French spokesman that slowing up of the French program was virtually tantamount to a reduction program because of the rapidity with which battleships become obsolete.

The Whirlpool Mid-Week Washer Answers an Every Home Need

This Once-a-Week-Appliance Now Becomes a Daily Utility.

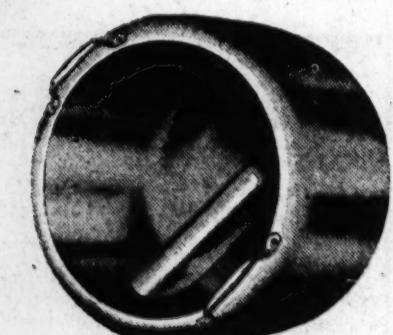

THIS Mid-week Washer is Whirlpool's latest improvement, a helpful aid to every home. It eliminates the grind of daily hard washing, for anything you formerly washed by hand may be safely entrusted to it.

Simple...Convenient to Operate

The Mid-Week operates simply... weighs no more than a good-sized teakettle... holds two and a half pounds of clothes. It fastens to the center shaft of the Whirlpool washer and is regulated by the same lines that control the big washer.

An Exclusive Whirlpool Feature

This marvelous auxiliary washer multiplies the uses to which an electric washer may be put and is available only in the Whirlpool. See it demonstrated and learn of the new boon to mothers.

For Baby's Clothing
Hosiery and Lingerie

The dainty and delicate garments you have heretofore washed by hand may be safely entrusted to the Mid-week washer.

Small Down Payment... Easy Monthly Payments With Your Electric Bills at Slight Additional Cost.

CHAPTER VII.

SID Eaton to Jameson, at the club on the occasion of a half-day dinner and raffle: "You were all wrong about Miss Murdoch! We sent a man into the field to make a complete survey; we sent others to the dealers; we worked like sailors."

"Whom? And why especially? I'm always wrong."

"My secretary. I had a talk with her recently and she told me she wouldn't marry the last man on earth."

"Well, who would?" inquired Jameson reasonably. "Or, rather, who could? The competition would be something fierce."

"Oh, be sensible you incomparable soul! I mean, the girl's modern. Her job means more to her than love in a walk-up."

"Are there any?" Jameson mused.

"Any what, for heaven's sake?"

"Modern girls," said Jameson.

Eaton caught his friend's arm and suggested: "Come on and have a drink, and let's find someone for bridge."

He was more light-hearted than his subsequent moderate consumption of Scotch warranted. He needn't worry about losing the best secretary a man ever had. He believed her. She had a quality of sincerity which impressed him enormously.

As the winter progressed Eaton intrusted Anne with more and more of his private affairs, giving her power of attorney for use when he was away on his frequent trips.

Later that spring Eaton was with Eaton in the conference room at an informal meeting with important clients, the Eaton Woolen Mills people. Half a dozen men sat around the long table.

The cotton concern had recently purchased a smaller, competitive company, and a new advertising campaign had been discussed and tentatively agreed upon.

Anne, notebook in hand, listened to Lawrence Eaton, who was speaking quietly to Hatton, the President, and Mayne, the general manager.

"May I make a suggestion?" he said.

"Of course," Hatton responded with his habitual refrigerated geniality. "Always glad to listen to any suggestions from you, Eaton."

"It's this, then: In taking over another concern, I know it is the custom to replace a number of their men with men of your own. There is, I suppose, much to be said for this. You, for instance, have your own policies, your routine, your particular way of going about things. And it is doubtless more difficult to convert a new company to your ways than to put your own men in and carry on without a break. But I'd like to make a plea for the men in the Smithson company who have given years of their lives to building up the business."

It is no light thing for them to be thrown out of work. All the kind, regretful words in the world, coupled with bonuses of two months' salary, won't help them. They've lost much more than a job, Mr. Hatton. They've lost—if they are good men, and I presume they are or their company would never have reached competitive proportions—they've lost the very mainspring of their existence.

"Wouldn't it be possible, Mr. Hatton, to utilize such men as are still active factors in the Smithson company, taking the trouble to train them to your methods, instead of the whole expense of getting the new concern? It seems to me that it would be very worth while. They can't have held their jobs so long without having their own ideas. And those ideas may be—probably are—helpful and constructive."

"There's something in what you say," Hatton admitted, with his maybe-yes-maybe-no manner. He turned to Mayne. "Day, the old superintendent, has a good record," he reported casually.

Mayne nodded. "He's responsible for most of the improvements I'm making. I like him, I believe."

"It certainly would hurt your prestige," suggested Eaton, "to be known as one of the few companies which, upon buying out a competitor, refuse to follow the ancient and honorable—although the latter term is open to argument—custom of firing all the lesser executives of the purchased concern."

"I think it over," said Hatton, which was, with him, tantamount to an agreement.

Back in his office, Eaton asked Anne: "Do you think I put it over?"

"I certainly do!"

"I hope so," he went on. "I've got in dozens of these cases—once in a moment with the gaudy mental picture of men given the girls after years of service. It beat a dream of mine to persuade some open-minded concern to do the generous thing, even at the expense of a more difficult task of reorganization."

"Hattie's a tough nut to crack. When we first got that account, I was up against it. He really committed himself. Their advertising methods were old-fashioned in the extreme; their copy were cringe-laden, and took everything I had to persuade him to a tremendous increase in appropriation and the modern shant."

"He was under the impression that he had hired a couple of bright boys to write pretty copy and draw pretty pictures for him. It took a long time to prove to him that we did more than that. He wanted his work done in six months. I said, 'No.' That interested him."

"I'm sorry," Eaton told Anne. Eaton didn't know Anne existed. But he said merely, "It happens

Eaton rose, casting a reluctant glance at the desk. It had been pleasant to work there in the quiet room at top speed, with Anne beside him, silent and quick and now. Linda only smiled and led the way to the supper table.

SYNOPSIS OF PRECEDING CHAPTERS

EMPLOYEE of the Eaton Advertising Agency, nine stories above Park avenue, were fiercely loyal to their chief. And this was understandable if you knew Lawrence Eaton. Occasionally women said that he was the most attractive man of their acquaintance. At 27, Eaton had been very much in love with Linda, then 22, and had loved him as much as her nature permitted. Now, after 10 years of marriage, he sometimes wondered at himself.

Bright-haired, vital, alive, young, Anne Murdoch had been three years of the Eaton agency when her opportunity came—the opportunity to become Eaton's personal secretary. To work with a man of Lawrence Eaton's breadth and power was something to dream of, for Anne had ambitions beyond a suburban home with Ted O'Hara, who was on her own rung of the ladder. She seized this opportunity as the fulfillment of the only dream she had permitted herself to have.

Yet on the first visit to the Eaton home, to help her employer's wife with some charity appeals, Anne was conscious of things which she had longed for but would never attain—beautiful, material things.

The only beauty Anne Murdoch saw in her own home was that of her sister, Kathleen, who had lately deserted that home for a career in the chorus. A visit to her brother, Jim, supporting a wife and son on a reporter's salary, did not give Anne an attractive picture of marriage. A great gamble was Anne's idea of it.

But Eaton overhears a conversation between his secretary and young O'Hara, which leaves him wondering whether he may not have to surrender his efficient assistant to Cupid, so he artlessly sets about his successor-to-be. Anne senses this and forces him to put his fears into words, then overranks the chief and makes her own long trip home.

Upon one such occasion:

"My word," said Linda, appearing in the study some time after midnight, "you two are glutons for punishment!

The night was unseasonably warm. Eaton, his hat damp and lank on his forehead, one cheek branded with the mark of a blue pencil, a green shade over his eyes, looked up blindly, as if Linda's cool voice had called him back from another world and he could not adjust himself. Anne, pale with fatigue, the collar of her dress wittled and soiled, looked up, then, the small, sympathetic desk which Eaton had had put in the room for her. She smiled at her employer's wife's frank admiration.

Linda had dined out and been to a play. She was wearing a charming gown, sea-green chiffon, from which her shoulders rose superbly.

"Gosh, she's lovely!" thought Anne, with a miserable feeling of defiance, looking at Linda.

Often. Office wives.

"Is that what you call them?" asked Linda, delighted.

"Not original with me, I assure you. It's as current a term as T. B. M."

"Perhaps, but I never heard it before. Office wives. It's odd," mused Linda. "The complete separation of personality."

"Offtop as it seems, Linda knows far more about Larry than I do."

Jameson was Lawrence Eaton's friend. He liked him. He admired him. But Jameson was in love with Eaton's wife. He was an honorable man. He was careful never to overstep the limits he had imposed upon himself. He was grateful for what she gave him—a close, understanding friendship.

He might easily have said something given her a hint; he said nothing. "Is that what you call them?" asked Linda, delighted.

"Not original with me, I assure you. It's as current a term as T. B. M."

"Perhaps, but I never heard it before. Office wives. It's odd," mused Linda. "The complete separation of personality."

"Perhaps, but I never heard it before. Office wives. It's odd," mused Linda.

"Offtop as it seems, Linda knows far more about Larry than I do."

"No, not yet. Perhaps she doesn't," said Linda. "Her Andrews was married to him. But he never seemed to like her. She was off at the dark end, hysterical and all that. No; he didn't tell me. It came to me in a round-about way from the sister of one of the girls in the art department. And all she said was: 'I understand Miss Andrews has had a nervous breakdown.'

"That was enough for me. But Larry was dead, dumb and blind while she was with him. I was sorry for her, and I'm sorry for this girl. She's pretty and young, and she surely deserves more for her than sitting around taking orders from a man who doesn't know she exists except for his business connections."

"Miss Andrews deserves it. You forgot that Miss Murdoch is not one of your superior sort, does not stand 5 feet 10 or so, does not weigh 150 pounds, or whatever it is."

"I'm sorry," Eaton told Anne. Eaton didn't know Anne existed. But he said merely, "It happens

ing the Fort, parked the car and took their seats. The beautiful ponies raced down the long green stretch.

Overhead a plane was stuntng busily; not far off were the blue waters of the Narrows. The band struck up—some commonplace band of the day, but oddly stirring in that setting. The captain of one of the teams galloped past, a heavy giant of a performer, Settler by name. Linda said:

"What a game. What a game!" She had forgotten about Anne and Eaton. But Jameson had not.

If Anne were really in love with her employer? It, as was on the cards, Eaton came to a realization of that fact?

Not that there was any comparison between the two women, thought Jameson, who loved Linda and was loyal to her, but he and Larry Eaton were two different men. Eaton was immersed in the business; he'd built up—and Linda frankly had no interest in his work save to deplore that he gave so much time to it. But Anne's interest was probably keen, doubtful, however. There was a meeting place to make.

DAILY STORY
FOR
CHILDREN

By Mary Graham Bonner

The Amused Sky.

HEY stayed at the top of the skyscrapers looking out over the city while the Little Black Clock told the story that had amused him.

"I hear it only yesterday," he said. "Word came to me through one of the clocks in the house. This clock had heard some news from the sky. It seemed the sky had been very much amused in the first place when the people on the earth had started building what they called skyscrapers."

"Of course, in those days they were not like the skyscrapers of today. They began in a small way. But they were tall buildings compared to the buildings of an age before, and so they seemed quite high."

"Now people say that these great towering high buildings are indeed skyscrapers—and it is that that amuses the sky."

"What the sky was heard to have said. 'What? They call these buildings skyscrapers, meaning they almost scrape the sky because they are so close to me?'

"What nonsense! They'll never so much as touch me no matter how high they build."

"Oh, no, they won't be able even to reach and put a finger on me!"

"So when they build these skyscrapers I laugh to myself and I have a fine old time up here. It's such a joke on the people."

"They have a fine, high-sounding name like skyscraper—but what does it mean?"

"It means they build tall buildings but it certainly doesn't mean they ever really, really come near me!"

THE TRUTH ABOUT RUDOLPH VALENTINO... By His Widow, Natacha Rambova

TOUYS Country as Dancer When Court
Order Bars Him From Stage and Screen

By NATACHA RAMBOVA

(Copyright, 1930, by Natacha Rambova. All rights reserved.)

CHAPTER X.

THE trouble that awaited us in New York was far worse than we had feared. Rudy suddenly found himself involved in a colossal litigation against the wealthiest, most powerful organization in the motion picture industry. Its giant tentacles were so far ramifying, its influence so widespread that Rudy, in his efforts to combat them, was helpless as a lone swimmer in midocean with every current and wind against him.

His fight with Famous Players-Lasky made cinema history. Other screen actors since motion pictures began had had their tiffs and bouts with producers; but these, in comparison, were mere children's quarrels, in which the children were spanked and made to behave.

But Rudolph Valentino was a world-famous star, the popular idol of two continents, with a gigantic following of fans, enormous pulling power at the box office. All the facts involved were so startling, the punishment he had to take was so severe, that the case, at the time, blazed in newspapers over the entire world, in headlines like those which a few years ago had announced victory or defeat in the war zone.

But this was back in 1922 and 1923, the world very quickly forgets; so, for the sake of those who are interested in learning the truth of the story, I will briefly review the highlights. To start at the beginning:

As soon as we perceived that the sonal liberty of a citizen of the United States could not be dismissed in a day, or a month, or a year, we made the best arrangements we could for a protracted stay in New York. Since mother and Uncle Dickie could no longer postpone their trip to Europe, we wired my aunt, Mrs. Werner, always our first aid in trouble, to come on from the coast to be our chaperon.

Meanwhile, how were we going to live? Fortunately, a friend in need, Joe Godsol, then president of Metro, came to our rescue. What we would have done without his generosity and kindness, I scarcely dare think. The help he gave us was entirely free from any security on Rudy's part—indeed, we had none to offer. Joe did not even ask interest on his loan nor accept it when offered. This unselfish proof of friendship will never be forgotten. Although the monetary debt was paid immediately the injunction was modified to permit Rudy to work, yet there are some debts money cannot pay. Our debt to Joe Godsol is one of these.

Rudy's case against Famous Players-Lasky, finally settled after long litigation, was significant in this respect: It changed the entire attitude of producers towards their stars. Hitherto, all screen actors had been mere pawns in the producers' hands. What the actors wanted or liked was of no consequence: the producers were the big boss. They ridiculed and belittled the stars at will and the stars kowtowed before them, for over their heads was held the gun of calamity of loss of contract if they peeped.

Auntie and I set up housekeeping in an attractive apartment on West Sixty-seventh Street, New York. Rudy moved to the Hotel des Artistes in the same block, to share an apartment with his friend, Frank McMillan. Gerry, exhausted by his long run of service as companion and chaperon, had by this time fled back to Hollywood.

Under these arrangements both Rudy and I could have a taste of home life, and still comply with the rule for "separate residences" until the long year should pass and we could be remarried.

Promises All Broken.

The first part of our litigations with Famous Players was very unfortunate. Our case was inadequately handled—painfully so, we learned—but by that time it was too late to make amends. The facts which had made the real breach between Rudy and his producers were not even mentioned in the affidavit which our lawyer drew up.

Famous Players had promised Rudy first, that if he would finish "The Young Rajah" in Hollywood, even though I had to fly to New York that he might make his other sister, Jean, his wife. This radical change in attitude extended to all other organizations in the industry.

But all this is a little ahead of my story. In his litigation with Famous Players, things continued to go badly until Rudy and I changed lawyers and secured Max Steuer to handle our case.

It was during these first trying months in New York that Rudy and I first became interested in psychic matters. I shall tell you something about this, for it brought about a great change in Rudy's life and made him much happier. Through its influence he was able to communicate with his mother and others dear to him in the spirit world. Through it he might have the privilege of choosing his own pictures in the future; and third, of choosing his own director.

None of these promises had been kept, which constituted Rudy's case against them.

But these important facts were mentioned in the papers our lawyer drew up. The only points missed in the case he made were ridiculous, petty annoyances and complaints—that Rudy didn't have a dressing room of his own and when shots had to sit on a chair in the sun; that he was never paid before extras and prop men in the dressing room, things he bottled in the eyes of the press and the public. What man's vanity would go to court for petty grievances like these?

Who's a so-called intelligent lawyer should be so little interested in winning his case was something neither Rudy nor I could understand—until later.

While June was with us her mother, Mrs. Jennie Mathis, died suddenly in New York. Mrs. Mathis was a wonderful woman and Rudy adored her, as he did all older women who took an interest in him and mothered him. This was exemplified in the affection he had for my own mother, my aunt, Pauline Frederick's mother, and many others. In reality he cared much more for all of them than for young flappers and girls his own age.

At Mrs. Mathis' funeral he became acquainted with a close friend of hers who had the gift of automatic writing. A few days later this friend sent Rudy a message, saying:

Kept Wife Off Stage.

As a result, Famous Players-Lasky were granted a complete injunction against Rudy, one of the most paralyzing injunctions ever issued by an American court. It barred him from production of any kind, not only on the screen and the stage but from any kind of work whereby he might earn a legitimate livelihood. By the terms of this injunction he couldn't even sweep the streets for a dime, drive a taxicab or pull weeds in anyone's garden—nothing whereby he might support himself.

And our finances in their usual precarious condition!

"Take this or leave it as you please."

Now INSTANT RIT Colors are INSTANT RIT to tint or fade streaks or spots with White RIT, and then renew them in lovely spring shades with INSTANT RIT.

White RIT removes color from all materials—even black—harmless as boiling water, even to the finest of fabrics. Then you can tint or fast-dye them perfectly...beautifully, with INSTANT RIT.

Use White RIT to remove color from:

Dresses Curtains
Hosiery Children's clothes
Lingerie Scarfs, gloves, etc.
Women everywhere are making dresses last twice as long with INSTANT RIT and White RIT. At your druggist or department store, 15¢ per package.

New INSTANT RIT Colors
Use INSTANT RIT to tint or fade streaks or spots with White RIT, and then renew them in lovely spring shades with INSTANT RIT.

White RIT has been combined with White RIT because they are kindred in formula and properties, results only guaranteed when used together.

Kept Wife Off Stage.

At Mrs. Mathis' funeral he became acquainted with a close friend of hers who had the gift of automatic writing. A few days later this friend sent Rudy a message, saying:

"Take this or leave it as you please."

Valentino as he looked in the leading role in "Blood and Sand," one of his early screen successes.

I, myself, could have supported us both quite easily by dancing in Dickie (as Rudy and I called Mr. vaudeville). Many offers of this kind were made me, but always when I came to accept them I found them suddenly and mysteriously withdrawn. We were checked on every side.

Meanwhile, how were we going to live? Fortunately, a friend in need, Joe Godsol, then president of Metro, came to our rescue. What we would have done without his generosity and kindness, I scarcely dare think. The help he gave us was entirely free from any security on Rudy's part—indeed, we had none to offer. Joe did not even ask interest on his loan nor accept it when offered. This unselfish proof of friendship will never be forgotten. Although the monetary debt was paid immediately the injunction was modified to permit Rudy to work, yet there are some debts money cannot pay. Our debt to Joe Godsol is one of these.

Rudy's case against Famous Players-Lasky, finally settled after long litigation, was significant in this respect: It changed the entire attitude of producers towards their stars. Hitherto, all screen actors had been mere pawns in the producers' hands. What the actors wanted or liked was of no consequence: the producers were the big boss. They ridiculed and belittled the stars at will and the stars kowtowed before them, for over their heads was held the gun of calamity of loss of contract if they peeped.

At first this scared Rudy almost out of his wits; he didn't know what to make of it. But the circumstances surrounding it were so weird, the incidents referred to so uncannily true, that curiously piqued him to investigate it. It was the first time either he or I had come in contact with any psychic phenomena, so, naturally, we were skeptical. We were certain things of this kind could be explained in ordinary ways—if not proved frauds altogether. Nevertheless, we agreed to have dinner with this friend and talk it over.

The more we investigated her gift of automatic writing, the more convinced we became of the great truth that lay behind it. We formed the habit of meeting at my apartment one or two evenings a week and it was not long until Rudy discovered that he, himself, had the gift of mediumship.

As doubt in the authenticity of these messages passed, the writing suddenly ceased to come backwards and came in legible form. Rudy discovered he had a particular guide in the spirit world known as Black Feather, the Indian, who often talked with him. Later I still talked with you of the incident where Black Feather saved his life.

Through these communications we were both given much helpful advice in our present difficulties and many things were predicted which later actually came to pass.

CHAPTER XI.

After the ridiculous injunction set against Rudy by Famous Players had been modified to the extent where he could earn a living, we started on our famous Mineralava dancing tour.

Through these communications we were both given much helpful advice in our present difficulties and many things were predicted which later actually came to pass.

CHAPTER XII.

After the ridiculous injunction set against Rudy by Famous Players had been modified to the extent where he could earn a living, we started on our famous Mineralava dancing tour.

Spreading the Net

POSTOR said his name was Novarro, she was suspicious and excused herself.

C LARA BOW, because of such things as these, changes her telephone number about once a month. The resulting pay-off comes when, away from home, she frequently is unable to remember the new number.

And there is the case of El Brendel, whose wife, in fear of burglars, uses locks inside the house as well as at the front door. The comedian, hearing the phone jingling long after he had retired, eventually picked his way out and got to the instrument. It was you guessed it—a wrong number.

New diversionism in Hollywood night life: Purchases. Some of the big ones are taking up the game.

Nino Martini, young Italian tenor, speaks little English, but Harry Green, who is not Irish is eloquent with gestures. Thus did Green spend several minutes inviting Martini to dine and attend the prize-fight with him. To all of which Nino smiled genially, and at the end responded, "Sure, help!"

Cecil DeMille has gone wild again in his pursuit of the spectacular.

This time it's to be a masquerade ball on board a Zeppelin. Still, it's difficult to imagine much hilarity among guests who ought to know some "life of the party" is going to be cut and short tacks into the gas line with a dirigolot.

New diversionism in Hollywood night life: Purchases. Some of the big ones are taking up the game.

Nino Martini, young Italian tenor, speaks little English, but Harry Green, who is not Irish is eloquent with gestures. Thus did Green spend several minutes inviting Martini to dine and attend the prize-fight with him. To all of which Nino smiled genially, and at the end responded, "Sure, help!"

The ubiquitous telephone is among the often doubtful blessings of the movie star.

Most of Hollywood's stars have secret numbers, but even the mouth-like faces have made caught of the secret with varying results.

Suppose you were a happily married woman, much engrossed in your profession and your home, and were awakened early one morning by a long-distance call from New York, and when you answered you were greeted with the friendly feminine voice pleading, "Commanding that you cease interference in her domestic affairs?"

That was the experience of Esther Ralston, who had never heard of the woman speaking. The caller threatened immediate suicide and hung up, and that, as far as Miss Ralston knew, was that. Fan-o-mania, said Hollywood.

William (Stage) Boyd — that's how subtle, imaginative Hollywood distinguishes him in conversation — the other day received checks from admiring ladies in New York requesting his photograph — but nothing in his pictures in which Miss Ralston knew was that. Fan-o-mania, said Hollywood.

There are two are nearer a compromise now than at the beginning of the controversy, but they are having abundant cause to regret the situation. They receive and open each other's mail, they answer each other's bills, they answer telegrams to be mystified by the friendly voice at the other end and when you answer you were greeted with the friendly feminine voice pleading, "Commanding that you cease interference in her domestic affairs?"

That was the experience of Esther Ralston, who had never heard of the woman speaking. The caller threatened immediate suicide and hung up, and that, as far as Miss Ralston knew, was that. Fan-o-mania, said Hollywood.

On the way, he was called by his professor to be "Buddy" Roosevelt.

Bennie Love, visiting in San Francisco, was called by her mother one evening by her lad who professed to be "Buddy" Roosevelt.

Bennie Love invited him to call — and that was the last she heard of this "Buddy." On returning to Hollywood she learned that Roosevelt had not been in San Francisco the time.

Jane Collyer had a similar experience during her last visit to her home in New York.

A man telephoned saying he was

Ramon Novarro's brother, and might he visit her? As Jane knew Ramon's brothers go by the family name of Samsonov, and the im-
